

Energy and Resources Conservation

Date Adopted:	05/14/1985
Date Revised:	11/16/2004
Date Reviewed:	2/9/2016
References:	Education Code Sections 81660 et seq.

The Board of Trustees recognizes the responsibility of the District: to reduce resource wastes to as low a level as is practicable without compromising the basic mission of the district, to help students and members of the community understand the need for wise use of natural resources, to promote an understanding of the relationship between reduced consumption and the quality of our environment, and to demonstrate leadership in voluntary efforts to reduce use of certain critical resources. Furthermore, the Board recognizes the need to provide the necessary funding to assure maximum effectiveness of the program.

A program of effective energy and other resources management must be vigorously pursued in order to maintain a stable academic environment. Recognizing this need for a cooperative campus and community effort, the Board directs the Superintendent/President to formulate and maintain a program of effective energy and resources conservation.

See Administrative Procedure 6505.
