

# Tutor Center Faculty Recommendation

The Tutor Center needs your help identifying students to become tutors. Faculty recommendations of prospective tutors have been a key tool in finding qualified students for the peer-led one-on-one and group tutoring sessions. While there are additional criteria for becoming tutor (A/B course grade at Sierra College, overall GPA and enrollment in at least 6 units), the faculty recommendation is the most important. Many of our most successful tutors never considered working in their current roles until they were recommended by their instructor.

Thank you for considering the students in your classes. If you can think of at least one student who has the makings of a good tutor, we encourage you to use this form to let us know about her or him.
