SIERRA JOINT COMMUNITY COLLEGE DISTRICT ORGANIZATION (Unaudited) June 30, 2020

Sierra Joint Community College District (the "District") is comprised of areas in Placer, Nevada, El Dorado and Sacramento Counties. The District operates a central campus located on a 299-acre site in the city of Rocklin, in southwestern Placer County, California, and two small satellite campuses located in Grass Valley and Truckee in Nevada County. Classes are also taught at the Roseville site and other sites throughout the 3,200-square-mile territory of the District. The District currently serves approximately 26,000 students who are enrolled in both day and evening classes, has a full time faculty of over 230, and a part time faculty of almost 900. Many areas of study are offered as well as vocational and technical education and many courses of instruction are transferable to accredited four-year colleges and universities.

The District is governed by a seven-member Board of Trustees, each member of which is elected to a four-year term. Elections for positions to the Board are held every two years, alternating between three and four available positions. The management and policies of the District are administered by a Superintendent appointed by the Board who is responsible for day-to-day District operations as well as the supervision of the District's other key personnel.

The Board of Trustees and District Administration for the fiscal year ended June 30, 2020, were composed of the following members:

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities, the discretely presented component unit and the fiduciary activities of Sierra Joint Community College District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Sierra Joint Community College District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of Sierra College Foundation, a discretely presented component unit, were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the discretely presented component unit and the fiduciary activities of Sierra Joint Community College District, as of June 30, 2020, and the respective changes in its financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the Foundation has adopted ASU 2018-08 - *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made.* Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 13 and the Schedule of Changes in Net OPEB Liability, the Schedule of Money-Weighted Rate of Return, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions on pages 65 to 67 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Sierra Joint Community College District's basic financial statements. The accompanying schedule of expenditure of federal awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditure of federal awards and supplementary information as listed in the table of contents is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The schedule of expenditure of federal awards and supplementary information as listed in the table of contents, except for the Organization, Combining Statement of Net Position by Fund and Combining Statement of Revenues, Expenses, and Change in Net Position by Fund have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards and supplementary information as listed in the table of contents, except for the Organization, Combining Statement of Net Position by Fund and supplementary information as listed in the table of contents, except for the Organization, Combining Statement of Net Position by Fund and Combining Statement of Revenues, Expenses, and Change in Net Position by Fund, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Organization, Combining Statement of Net Position by Fund and Combining Statement of Revenues, Expenses, and Change in Net Position by Fund have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 1, 2021 on our consideration of Sierra Joint Community College District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Sierra Joint Community College District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Sierra Joint Community College District's internal control over financial reporting and compliance.

INTRODUCTION

This section of Sierra Joint Community College District's financial statements presents our discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2020. The discussion has been prepared by management and should be read in conjunction with the financial statements and notes, which follow this section.

The Sierra Joint Community College District was established in 1936, covers over 3,200 square miles and serves Placer, Nevada and parts of El Dorado and Sacramento counties. The District includes one comprehensive community college and two centers. Students may choose from 92 associate degree majors and 94 achievement or skill certificate programs, complete courses toward the first two years of a bachelor's degree program or pursue courses for professional or other purposes.

The District attained fiscal independence from Placer County Office of Education in 2008-2009. The application process required an extensive evaluation of our accounting controls to ensure they met the standards required by the Board of Governors. The District passed this evaluation and was granted fiscal independence by the Board of Governors effective July 1, 2009.

OVERVIEW OF THE FINANCIAL STATEMENTS

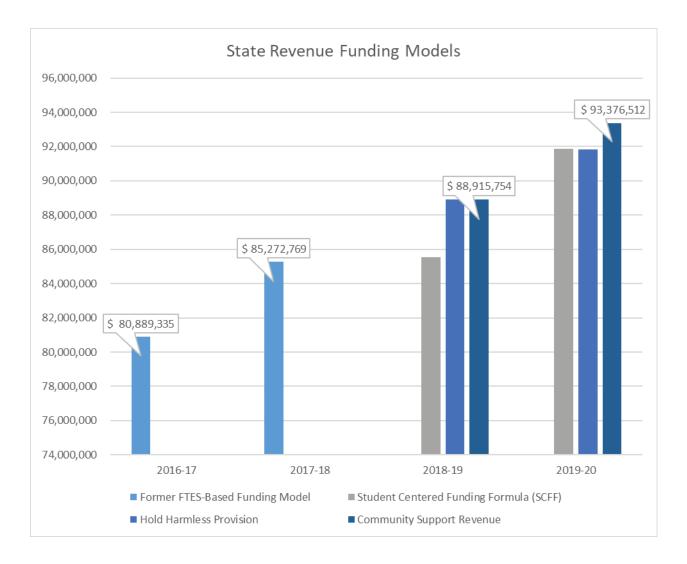

The Sierra Joint Community College District's financial statements are presented in accordance with Governmental Accounting Standards Board (GASB) Statements No. 34, "*Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments and No. 35, Basic Financial Statements - and Management Discussion and Analysis - for Public College and Universities*". The following discussion and analysis provides an overview of the District's financial activities for the fiscal year ended June 30, 2020 and the intent of this discussion and analysis is to look at the District's financial performance as a whole. To provide a complete understanding of the District's financial standing, this analysis should be read in conjunction with the entire Independent Auditor's Report, particularly the District's financial statements, and the notes to the basic financial statements. The California Community College Chancellor's Office, through its Fiscal and Accountability Standards Committee, has recommended the Business Type Activity (BTA) model for financial reporting and the District has adopted the BTA reporting model for these financial statements.

As required, the annual report consists of three basic financial statements that provide information on the District as a whole:

- Statement of Net Position
- Statement of Revenues, Expenses and Change in Net Position
- Statement of Cash Flows

FINANCIAL HIGHLIGHTS

Prior to the 2018-19 fiscal year, the District was primarily funded under an FTES-based funding model. Starting in 2018-19, a new funding model, the Student Centered Funding Formula (SCFF) was introduced that shifted allocations from enrollment-based funding to one that allocates resources based on student enrollment (70%), student demographics (20%) and student success (10%). In order to ease the transition to the new SCFF, the state provided several years of a funding guarantee called the 'Hold Harmless Provision'. The Hold Harmless funding provision is equal to a district's 2017-18 Total Computational Revenue adjusted for COLA and will continue through the 2023-24 fiscal year. In addition to the above-mentioned funding options, when the amount of property tax and student enrollment fee revenue received by the district exceed the state funding guarantee, the district becomes what is known as 'Community Supported' or 'Basic Aid'. The District receives and reports funding at the highest of the three funding options. The below graph displays the funding levels under each method.

- The 2019-20 total General Fund revenues, excluding the recording of State On-Behalf payments of \$4 million were \$116.8 million compared to \$119.5 million earned in 2018-19, an decrease of \$2.7 million or 2.3%.
- Revenues for categorical programs and other grants in the Restricted General Fund declined to \$23.4 million in 2019-20 from \$30.7 million in 2018-19, primarily due to the close out of the CCC Maker Fiscal Agent Fund.
- The District's unrestricted fund balance, after commitments, leaves a 2019-20 ending fund balance of \$15.4 million or 12.5% of general fund expenditures. The Board of Trustees has set a goal to maintain reserves between eight and twelve percent of General Fund expenditures.
- State On-behalf Pension contributions were calculated in the amount of \$4.0 million for 2019-20, comprised of \$4.0 million for CalSTRS and \$0 for CalPERS. Districts are required under GASB 24 to recognize the state's on-behalf contributions. These costs paid by the State of California are reflected in the benefit expenses and a corresponding amount of state revenue is also recorded resulting in no impact to fund balance.
- Health benefits expenses, for both employees and retirees increased only \$43,000 over the prior year. For employees hired before July 1, 1994, the District pays medical premiums upon retirement. The District has accounted for retiree benefits on a "pay-as-you-go basis." The Net OPEB Liability as of June 30, 2020, is \$30.9 million when considering \$13.3 million of assets held in a GASB 74 qualifying OPEB Trust. Accounting principles provide that the cost of retiree benefits should be accrued over employees' working lifetime. In accordance with this principle, GASB issued in June of 2015 Accounting Standards 74 and 75 for retiree health benefits. These standards apply to all public employers that pay any part of the cost of retiree health benefits for current or future retirees. The year ended June 30, 2017 marks the first year these Accounting Standards were applied to the financial statements.
- The District paid down \$4.7 million in long-term debt.
- The District is required to allocate 50 percent of unrestricted general fund expenses to classroom instructional costs (50 percent law). The District continues to be in compliance and has exceeded this requirement. In 2019-2020, the District expended 52.12% on classroom instructional compensation.

Statement of Net Position

The Statement of Net Position includes all assets and liabilities using the accrual basis of accounting. Net position – the difference between assets and liabilities, is one way to measure the financial condition of the District. A summary of the Statement of Net Position as of June 30, 2020 and June 30, 2019 is shown below:

 Approximately 97% of the cash balance is cash deposited in the Placer County Treasury Pool and approximately 3% is cash deposited in local financial institutions. The Statement of Cash Flows contained within these financial statements provides greater detail regarding the sources and uses of cash and the net increase or decrease of cash during the fiscal year.

- The District receives cash unevenly throughout the year, as the main source of revenue is property taxes, which are collected and received in December and April. In order for the District to meet its cash needs during the months immediately preceding December and April, the District arranges Dry Period Financing through the Placer County Treasury. This form of borrowing is very efficient and cost effective for the District given the relatively small amounts and short timeframes that an advance of cash is needed to support operations.
- The majority of the accounts receivable balance is from student enrollment fees, federal and state grant programs and federal and state entitlement programs.
- Capital Assets, net of depreciation, are \$154 million, with debt related to these assets of \$142 million, and a deferred loss on refunding of \$1.5 million for a net investment in capital assets of \$72 million. The majority of debt is in the form of General Obligation Bonds related to School Facility Improvement Districts for the Tahoe-Truckee campus, the Nevada County campus in Grass Valley and the Rocklin campus. Projects for the Tahoe-Truckee campus were completed in 2010-2011 and projects in Grass Valley were completed during 2014-15. Construction commitments for all capital projects at June 30, 2020 were \$36.6 million of which a major component is a \$23.9 million remaining construction contract related to the Rocklin parking garage which began construction in November 2019. See Note 5, Capital Assets, in the Notes to Basic Financial Statements for detailed information.
- At year-end, the District had \$158.7 million in General Obligation Bonds and associated unamortized bond premium and accreted interest, Certificates of Participation (COP), and Capitalized Lease Obligations outstanding. The District continued to pay down its debt, retiring \$4.7 million of the COPs, capital leases, and bonds exclusive of debt refunding. See Note 7, Long-Term Liabilities in the Notes to Basic Financial Statements for detailed information.
- The District has adopted Governmental Accounting Standards Board Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions in 2016-17. This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans. GASB Statement 75 requires the liability of employers and non-employer contributing entities to employees, for defined benefit OPEB (net OPEB liability), to be measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position.
- The District engaged an actuarial service to calculate the Net OPEB Liability as of June 30, 2020, which was \$30.9 million, a decrease of \$.7 million over the Net OPEB Liability of \$31.6 million as of June 30, 2019. The District has set aside funds to cover retiree health liabilities in a GASB 74 qualifying trust. The Fiduciary Net Position of this trust at June 30, 2020 was \$13.3 million, an increase of \$700,000 over June 30, 2019 when the balance was \$12.6 million. See Note 10 in the Financial Statements for additional detail.
- Compensated absences (accrued vacation not used at June 30), reflected as liability, totaled \$2.2 million.
- The District has three General Obligation Bonds and Ratings are based on the District's fiscal stability, and overall creditworthiness. The table below reflects the most recent rating assigned by the major rating agencies.

ENDING NET POSITION	\$ (1,632,373)	\$ (10,174,295)	\$ 8,541,852	-84.0%

The primary operating revenues are from grants and contracts as well as student tuition and fees. The primary operating expense of the District is the payment of salaries and benefits to instructional and classified support staff.

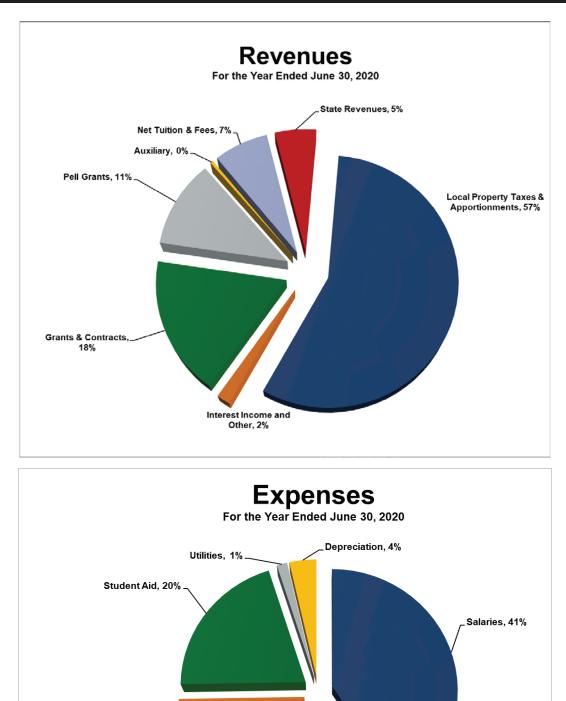

- The major components of tuition and fees are the \$46 per unit enrollment fee that is charged to all students registering for classes and the additional \$265 per unit fee that is charged to all non-resident students. Net tuition and fees decreased by \$1.4 million or 9.6%. This decrease is directly related to the impact of COVID-19 and student's withdrawal from courses and refunds of parking permits.
- Apportionment Funding: The 2019-2020 funding formula revenues for the unrestricted general fund reflect an increase over the 2018-2019 fiscal year. 2018-2019 revenues from the state funding formula totaled approximately \$88.9 million and increased to approximately \$93.4 million for 2019-2020. This represents a \$4.5 million or 5% total increase.
- The interest income is primarily the result of earnings on cash held at the Placer County Treasury.
- Expenses for employee salaries and statutory benefits increased by \$7.3 million over 2018-19 or 7.4% and include step, column, longevity and approximately \$1.6 million in a one-time payment to staff. Included in the salary and benefits is an additional \$6.9 million of pension expense is reflected in the audited financial statements related to GASB 68 pension costs and a decrease of \$582,000 of GASB 75 OPEB costs. State on behalf expenses for CalPERS and CalSTRS decreased by \$2.5 million over 2019-20. Total operating expenses increased by \$981,000 or .6%. The percentage of personnel costs included in operating expenses increased slightly to 63%.
- During the 2019-20 fiscal year, \$1,1 million of assets were placed in service and \$22.6 million was added to construction in progress while \$26,000 net of accumulated depreciation were retired. Depreciation expense declined to \$6.2 million. The District uses the straight line, mid-year convention.

Statement of Cash Flows

The Statement of Cash Flows provides information about cash receipts and cash payments during the fiscal year. The statement also helps users assess the District's ability to generate positive cash flows, meet obligations as they come due and the need for external financing.

A summary of the Statement of Cash Flows for the years ended June 30, 2020 and June 30, 2019 is shown below.

	2019-20	2018-19	Increase (Decrease)	Percent Change
NET CASH PROVIDED BY (USED IN)				
Operating activities	\$ (108,736,686)	\$ (108,838,182)	\$ 101,496	-0.1%
Non-capital financing activities	116,909,351	111,819,026	5,090,325	4.6%
Capital and related financing activites	(15,146,898)	73,359,536	(88,506,434)	-120.6%
Investing activities	1,860,479	1,728,100	132,379	7.7%
NET INCREASE/(DECREASE) IN CASH AND CASH EQUIVALENTS	(5,113,754)	78,068,480	(83,182,234)	-106.6%
CASH BALANCE, BEGINNING OF YEAR	150,912,631	72,844,151	78,068,480	107.2%
CASH BALANCE, END OF YEAR	\$ 145,798,877	\$ 150,912,631	\$ (5,113,754)	-3.4%

- Operating activities includes tuition and fees, grants and operating payments. The net amount of cash used held steady at \$109 million. The sub-components were a decreases in tuition and fees and payments to suppliers with offsetting increases in payments to employees and aid to students. The increases and decreases and due to changes in operations and increased support for students during the move to a remote instructional and work environment due to COVID-19.
- There is consistent significant cash in-flow in non-capital financing activities which includes property taxes, Pell grants, State apportionments, and local revenues; property taxes being the largest component at \$84 million.
- Capital and related financing activities correlate to bond issuances and redemptions. Construction projects and spending of capital debt are also reported in capital and related financing activities. \$23.8 million was invested in capital assets funded by Measure E during 2019-20.
- Cash flow is adequate for a medium size district; the District participates in the Placer County Treasury investment pool to maximize interest earnings on unspent cash and minimize risk.

A LOOK FORWARD

General Revenue Outlook: Despite the major economic impacts of the COVID-19 pandemic, 2020-21 funding levels from the State have been largely unaffected for California's 72 community college districts. The only fiscal impact to community colleges was a deferral of payments, which the District was able to manage from within existing resources (back-up financing from the Placer County Treasury was arranged, but never needed during the course of the year). For 2021-22, reports from the Legislative Analyst's Office indicate that growth in the Proposition 98 minimum funding guarantee should provide protection from budget reductions in the coming year.

On-Schedule Salary Increase: No on-schedule salary increases have been given or negotiated with employees. The District's labor-relations climate remains generally positive.

Community Supported Status: Because the District receives the vast majority of its revenues from local property taxes and student fee revenues, it enjoys a financial "safety net" that most community college districts do not have. Since local property taxes and student fee revenues are generated locally and cannot be taken by the State, these funding sources are not subject to the level of volatility seen in State funding. In California's K-12 and community college system, this is what is known as "community supported" or "basic aid" status. Due to strong local property tax growth, the District became community supported in 2019-20 when local revenues exceeded its eligibility for funding under the State's funding model for community college districts (Student Centered Funding Model or SCFF) by \$1.5M (\$93.4M compared with \$91.9M under the SCFF). In 2020-21, the District's local revenues are exceeding its eligibility under the Student Centered Funding Model by \$1.9M (\$93.7M compared with \$91.8M under the SCFF).

Major Expenditure Items: Given uncertainty over economic impacts of the pandemic and possible impacts on available revenues, in 2020-21 the District took a conservative approach and maintained spending generally in line with the 2019-20 levels. The 2020-21 budget includes the following increases over prior-year levels (amounts are ongoing unless otherwise noted):

•	CalPERS Employer Rate Increase	\$185,000
-	CalSTRS Employer Rate Decrease	\$325,000 (savings)
•	Stipends/Release Time (one-time)	\$121,000
-	Technology Investments (\$20k one-time)	\$221,000

Response to COVID-19 Pandemic: In March 2020, the District responded rapidly to the emerging pandemic by converting its onsite classes to an online delivery format. Less than five percent of instruction remained onsite, comprised exclusively of training for first responders (EMTs, nurses, fire fighters, and law enforcement) and other essential workforce classifications identified by the State. This rapid conversion to online instruction and remote operations kept our students and employees safe during these unprecedented times while also providing continuity of instruction for our students. The District will remain in this largely online status in spring 2021 and until a vaccine makes onsite instruction and operation viable once again. The District has closely followed federal, state, and local guidance and restrictions throughout this crisis. A large infusion of federal and state emergency assistance funding has helped the District meet the additional costs incurred, including significant investments in staff development and Information Technology to improve online instruction and student support.

Major Progress on Bond-Funded Construction Program: In June 2018, local voters approved Measure E, a \$350 million facilities bond to fund improvements on the Rocklin Campus. These monies, along with an estimated \$150 million from state facilities funding and proceeds from development of surplus property, will support an extensive program of new construction and modernization projects covering the entire campus. Since passage of Measure E, the District has been working intensively to implement this construction program. A silver-lining of the pandemic is the ability to accelerate construction projects to take advantage of reduced campus pedestrian and vehicular traffic. Highlights of progress to date include:

- Major progress on a \$51.7M, 1,500 car parking garage, scheduled for completion in June 2021
- Completion of a \$5.5M renovation of the Student Union kitchen
- Launch of a \$32.9M Infrastructure project to replace/upgrade all campus utilities
- Design of a \$66.9M New Instructional Building that will be home to roughly 75% of lecture space on Rocklin Campus. Site work planned to commence in spring 2021.
- Award of \$27M in State Bond funding for the Gym Modernization Project (total budget \$38M) and award of \$25M in State Bond funding for the New Science Building (total budget \$61.6M). Construction on these projects to commence in summer 2022 and winter 2023, respectively.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Reporting Entity</u>: Sierra Joint Community College District (the "District") is a political subdivision of the State of California and provides educational services to the local residents of the surrounding area. While the District is a political subdivision of the State, it is not a component unit of the State in accordance with the provisions of Governmental Accounting Standards Board ("GASB") Codification Section (Cod. Sec) 2100.101. The District is classified as a state instrumentality under Internal Revenue Code Section 115.

The decision to include potential component units in the reporting entity was made by applying the criteria set forth in accounting principles generally accepted in the United States of America (GAAP) and GASB Cod. Sec. 2100.101. The three criteria for requiring a legally separate, tax-exempt organization to be presented as a component unit are the "direct benefit" criterion, the "entitlement/ability to access" criterion, and the "significance" criterion. The District identified the Sierra Community College Financing Corporation (the "Financing Corporation") and the Sierra College Foundation (the "Foundation") as its potential component units.

The Financing Corporation is an organization whose activities to date have been limited to the issuance of Certificates of Participation and entering into lease arrangements with the District as discussed in Note 7. The District and the Financing Corporation have financial and operational relationships which met the reporting entity definition of GASB Cod. Sec. 2100.101 for inclusion of the Financing Corporation have been blended with the financial statements of the District. The Financing Corporation had no activity for the year ended June 30, 2020.

The Foundation is a nonprofit, tax-exempt organization dedicated to providing financial benefits generated from fundraising efforts and investment earnings to the District. The funds contributed by the Foundation to the benefit of the District are significant to the District's financial statements. The District applied the criteria for identifying component units in accordance with GASB Cod. Sec. 2100.138 and therefore, the District has classified the Foundation as a component unit that will be discretely presented in the District's financial statements. Copies of the Foundation's annual financial report may be obtained from the District Business Office, 5100 Sierra College Blvd., Rocklin, California 95677.

<u>Basis of Presentation and Accounting</u>: For financial reporting purposes, the District is considered a special-purpose government engaged only in business-type activities as defined by GASB. Under this model, the District's financial statements provide a comprehensive entity-wide perspective of the District's financial position and activities. Accordingly, the District's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned and expenses are recorded when the obligation has been incurred. All significant intra-agency transactions have been eliminated.

Fiduciary funds for which the District acts only as an agent or trust are not included in the business-type activities of the District. These funds are reported in the Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position at the fund financial statement level.

The Foundation's financial statements are prepared on the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recognized when they are incurred in accordance with accounting principles generally accepted in the United States of America. Recognition of contributions is dependent upon whether the contribution is restricted or unrestricted. Net assets are classified on the Statement of Financial Position as net assets without donor restriction or net assets with donor restriction based on the absence or existence of donor-imposed restrictions. The Foundation's statements were prepared in accordance with the pronouncements of the Financial Accounting Standards Board ("FASB"). As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the District's report for these differences.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Cash and Cash Equivalents</u>: For the purposes of the financial statements, cash equivalents are defined as financial instruments with an original maturity of three months or less. Funds invested in the Placer County Treasury are considered cash equivalents.

<u>Restricted Cash, Cash Equivalents and Investments</u>: Cash that is externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets, is classified as non current assets in the statement of net position.

<u>Fair Value of Investments and Investment Pools</u>: The District records its investment in Placer County Treasury at fair value. Changes in fair value are reported as revenue in the Statement of Revenues, Expenses and Change in Net Position. The fair value of investments, including the Placer County Treasury external investment pool, at June 30, 2020 approximated their carrying value. Foundation investments in debt and equity securities are carried at fair value. Realized gains and losses and unrealized appreciation (depreciation) of those investments are reflected in the Statement of Activities. Fair values of investments in county and State investment pools are determined by the pool sponsor.

<u>Receivables</u>: Receivables consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff, the majority of each residing in the State of California. Receivable also include amounts due from the Federal Government, State and Local Governments, or private sources, in connection with reimbursements of allowable expenditures made pursuant to the District's grants and contracts. The District provides an allowance for doubtful accounts as an estimation of amounts that may not be received. The allowance is based on management's estimates and historical analysis.

Foundation receivables consist of unconditional promises to give. Unconditional promises to give are expected to be collected within one year and are recorded at net realizable value. The Foundation utilizes the allowance method for accounting for uncollectible receivables. No allowance was necessary at June 30, 2020.

<u>Inventory</u>: Inventories are determined on the first-in, first-out (FIFO) method and are stated at the lower of cost or market.

<u>Capital Assets</u>: Capital assets are recorded at cost at the date of acquisition or, if donated, at acquisition value for the contributed assets. For equipment, the District's capitalization policy includes all items with a unit cost of \$5,000 or more, and estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 25 years for portable buildings, 20 years for site and building improvements, 5-20 years for equipment and vehicles, and 5 years for technology equipment, such as computers.

<u>Compensated Absences</u>: Compensated absences costs are accrued when earned by employees. Accumulated unpaid employee vacation benefits are recognized at year-end as liabilities of the District.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Accumulated Sick Leave</u>: Normal sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expenditure or expense in the period taken since such benefits do not vest nor is payment probable.

<u>Unearned Revenue</u>: Revenue from Federal, State and local special projects and programs is recognized when qualified expenditures have been incurred. Tuition, fees and other support received but not earned are recorded as unearned revenue until earned.

<u>Postemployment Benefits Other Than Pensions (OPEB)</u>: For purpose of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Sierra Joint Community College District's Plan (the "Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and interest-earning investment contracts that are reported at cost. There is not a separately issued report of the plan.

<u>Deferred Outflows/Inflows of Resources</u>: In addition to assets, the Statement of Net Position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred loss on refunding reported in the Statement of Net Position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter life of the refunded or refunding debt. Additionally, the District has recognized a deferred outflow of resources related to the recognition of the pension liability and OPEB liability reported in the Statement of Net Position.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the pension liability and OPEB liability reported which is in the Statement of Net Position.

<u>Pensions</u>: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP and PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Certain investments are reported at fair value. The following is a summary of pension amounts in aggregate:

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Co	ontinued)
---	-----------

	<u>CalSTRS</u>	<u>CalPERS</u>	<u>Total</u>
Deferred outflows of resources	<u>\$ 13,172,228</u>	<u>\$ 10,146,942</u>	<u>\$ 23,319,170</u>
Deferred inflows of resources	\$ 6,318,000	\$ 876,000	\$ 7,194,000
Net pension liability	\$ 52,729,000	\$ 46,157,000	\$ 98,886,000
Pension expense	<u>\$ 11,043,384</u>	\$ 9,836,220	\$ 20,879,604

Net Position: The District's net position is classified as follows:

Net investment in capital assets: This represents the District's total investment in capital assets, net of associated outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted net position: Restricted expendable net position includes resources in which the District is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties. Nonexpendable restricted net position consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal. At June 30, 2020, there is no balance of nonexpendable restricted net position.

Unrestricted net position: Unrestricted net position represents resources derived from student tuition and fees, State apportionments, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the District, and may be used at the discretion of the governing board to meet current expenses for any purpose.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the District typically first applies the expense toward restricted resources, then to unrestricted resources. This practice ensures fully utilizing restricted funding each fiscal year.

<u>Net Assets</u>: The Foundation's net assets are classified as follows:

Net assets without donor restriction - Net assets not subject to donor-imposed stipulations.

Net assets with donor restriction - Net assets consisting of cash and other assets received with donor stipulations that limit the use of the donated assets or that are nonexpendable and consist of endowment and similar type funds in which the donor has stipulated as condition of the gift, that the principal be maintained in perpetuity. When a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restriction are reclassified to net assets without donor restriction and reported in the Statement of Activities as net assets released from restrictions.

The Foundation's endowment currently consists of 37 individual funds established for the purpose of supporting education at the District. The endowment includes both donor-restricted endowment funds and funds designated by the Board of Directors to function as endowments. Net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Board of Directors of the Foundation has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of the gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard prudence prescribed by UPMIFA.

The Foundation follows its adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Foundation must hold in perpetuity or for a donor-specific period(s) as well as board-designated funds.

The investment objective is to optimize earnings on all invested funds, while maintaining the preservation of capital. Risk will be minimized by investing in high quality fixed income instruments. To the extent that corporate obligations are purchased, those purchases will be diversified in terms of issuer and industry sector.

<u>State Apportionments</u>: Certain current year apportionments from the State are based on various financial and statistical information of the previous year. Any prior year corrections due to a recalculation will be recorded in the year computed by the State.

<u>Classification of Revenue</u>: The District has classified its revenues as either operating or nonoperating revenues. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenues, as defined by GASB Cod. Sec. Co5.101 including State appropriations, local property taxes, and investment income. Nearly all the District's expenses are from exchange transactions. Revenues and expenses are classified according to the following criteria:

Operating revenues and expenses: Operating revenues and expenses include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of fee waivers and allowances, (2) sales and services of auxiliary enterprises, and (3) most Federal, State and local grants and contracts and Federal appropriations. All expenses are considered operating expenses except for interest expense on capital asset related debt.

Nonoperating revenues and expenses: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as Pell grants, gifts and contributions, and other revenue sources described in GASB Cod. Sec. C05.101, such as State appropriations and investment income. Interest expense on capital related debt is the only non-operating expense.

<u>Contributions</u>: Contributions are recognized as revenues in the period received. Unconditional promises to give (pledges) are recognized as revenue when the commitment is communicated to the Foundation. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are met. Contributions of assets other than cash are recorded at their estimated fair value at the date of donation. Contributions are considered available for unrestricted use unless specifically restricted by the donor. Event revenues received in advance are unearned and recognized in the period as the events occur.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Fee Waivers</u>: Student tuition and fee revenue are reported net of the Board of Governors fee waivers in the Statement of Revenues, Expenses and Change in Net Position. Certain governmental grants, and other federal, state and nongovernmental programs are recorded as operating revenues, while Federal Pell Grants are classified as non-operating revenues in the District's financial statements.

<u>Property Taxes</u>: Secured property taxes attach as an enforceable lien on property as of March 1, and are payable in two installments on December 10 and April 10. Unsecured property taxes are payable in one installment on or before August 31. The Placer, Nevada, Sacramento, Yuba and El Dorado Counties each bill and collect taxes for the District. Tax revenues are recognized by the District when received.

<u>Estimates</u>: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

<u>Tax Status of the Foundation</u>: The Foundation is a nonprofit public benefit corporation exempt from federal income tax under Section 501(c)(3) of the U.S. Internal Revenue Code. The Foundation has been classified as an organization that is not a private foundation and has been designated as a "publicly supported" organization. Contributions to the Foundation are deductible under Section 170(c)(2). The Foundation believes that it has appropriate support for any tax positions taken, and as such, does not have any uncertain tax positions that are material to the financial statements. The Foundation does not expect the total amount of unrecognized total benefits to significantly change in the next 12 months. Interest and penalties on tax assessments are classified as an expense when incurred. For the year ended June 30, 2020, the Foundation did not incur any interest or penalties.

The Foundation would recognize interest and penalties related to unrecognized tax benefits in tax expense. During the year ended June 30, 2020, the Foundation did not recognize any interest or penalties. The Foundation files exempt organization returns in the U.S. Federal and California jurisdictions. The returns remain subject to examination by the U.S. Federal jurisdiction for three years after the return is filed and for four years by the California jurisdiction. There are currently no tax years under examination.

<u>New Accounting Pronouncements</u>: In June 2018, the FASB issued Accounting Standards Update (ASU) 2018-08, *Not-for-Profit Entities (Topic 958): Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*. The amendments in this Update provide a more robust framework to determine when a transaction should be accounted for as a contribution under Subtopic 958-605 or as an exchange transaction accounted for under other guidance (for example, Topic 606). The amendments also provide additional guidance about how to determine whether a contribution is conditional. The Foundation applied the amendments in this ASU for the year ended June 30, 2020 using a full retrospective method of application. There were no material changes to the recognition or presentation of revenue as a result of the application of ASU 2018-08. As a result, no cumulative effect adjustment was recorded upon adoption.

NOTE 2 - CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash, cash equivalents and investments at June 30, 2020, consisted of the following:

	District	Foundation	Agency <u>Funds</u>	Trust <u>Fund</u>
Pooled Funds: Cash in County Treasury Deposits:	\$ 124,184,826	\$-	\$ 1,766,185	\$ -
Cash on hand and in banks Funds invested by Fiscal Agents Investments	2,207,574 19,406,477 	1,768,073 - <u>9,070,828</u>	- - -	36,170 - 13,292,831
Total cash, cash equivalents and investments	145,798,877	10,838,901	1,766,185	13,329,001
Less: restricted cash, cash equivalents and investments	26,762,446		<u>-</u>	
Net cash, cash equivalents and investments	<u>\$ 119,036,431</u>	<u>\$ 10,838,901</u>	<u>\$ 1,766,185</u>	<u>\$ 13,329,001</u>

<u>Pooled Funds</u>: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest bearing Placer County Treasurer's Pooled Investment Fund. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's prorata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio).

During the fiscal year ended June 30, 2020, the District earned \$2,328,866 in investment income from its cash in the Placer County Treasury.

Cash and Investments with Fiscal Agents: Cash and investments with Fiscal Agents totaling \$19,406,477 represents cash and investments held by third party custodians relating to SFID debt service. These funds are maintained in the interest bearing Placer County Treasurer's Pooled Investment Fund and are carried at fair value. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio).

Foundation Investments: At June 30, 2020, the Foundation's investments consisted of the following:

Mutual funds	\$ 8,312,184
Investment in Foundation for California Community Colleges	
Scholarship Endowment (FCCC/Osher)	666,519
Equity securities	 91,495
	\$ 9,070,198

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Included in total investments at June 30, 2020 is an equity investment in a closely-held company in the amount of \$91,495. This investment without readily determinable fair value is carried at cost because of the Foundation's inability to exercise significant influence over the company.

The Foundation invests in a pooled scholarship endowment fund, FCCC/Osher, managed by the Foundation for California Community Colleges ("FCCC"). The objective of the Foundation's investment in FCCC/Osher is to grow the Foundation's investments through the Bernard Osher Foundation pledge to match funds contributed to FCCC/Osher. The investment managers engaged by FCCC are required to follow specific guidelines set forth by FCCC with respect to the various types of allowable investments purchased and held by the pool. Accordingly, the estimated fair value of these investments is based on information provided by external investment managers engaged by FCCC. At June 30, 2020, the Foundation investment in pool consisted of 3% cash and short term investments, 31% fixed income securities, and 66% equity securities.

<u>Trust Investments</u>: The Trust agreement authorizes the use of a broad range of investment choices that have distinctly different risks and return characteristics. In general, investments held in the Trust Fund are for the primary purpose of meeting present and future OPEB liability obligations and may be invested in accordance with California Government Code Sections 53600 through 53622 that, subject to applicable legal requirements, may provide greater latitude to increase purchasing power and capital growth potential if deemed prudent to do so.

The Trust Fund's investment portfolio is invested with the objective of achieving a target net annual rate of return of 5.5% as well as an additional 1% to cover the costs of trust administration. At June 30, 2020, 35% of the Trust's investment value is held in equities, 59% is held in fixed income and 6% in real estate securities.

As stated in the Investment Policy, the Trust will invest predominantly in equities and fixed income securities. The fair value of the Trust's individual investments at June 30, 2020 are as follows:

Mutual Fund - Equities	\$ 4,665,951
Mutual Fund - Fixed income	7,838,764
Mutual Fund - Real estate	788,116
Total investments	<u>\$ 13,292,831</u>

<u>Custodial Credit Risk</u>: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Deposit Insurance Corporation ("FDIC") and are collateralized by the respective financial institution. At June 30, 2020, the carrying amount of the District's cash on hand and in banks for the primary governmental entity was \$2,207,574 and the bank balance was \$2,012,921. The bank balance amount insured was \$1,823,703.

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Cash balances held in banks at the Foundation are also insured up to \$250,000 by the FDIC. Cash equivalents held by a broker are insured up to \$500,000 by the Securities Investor Protection Corporation ("SIPC"). At June 30, 2020, the carrying amount of the Foundation's cash on hand and in banks and cash equivalents was \$1,768,073 and the bank balance was \$1,781,413. The bank balance amount insured by the Federal Deposit Insurance Corporation or Securities Investor Protection Corporation was \$1,090,577.

The California Government Code requires California banks and savings and loan associations to secure the District's deposits by pledging government securities as collateral. The market value of pledged securities must equal 110 percent of an agency's deposits. California law also allows financial institutions to secure an agency's deposits by pledging first trust deed mortgage notes having a value of 150 percent of an agency's total deposits and collateral is considered to be held in the name of the District. All cash held by the financial institutions that is not insured is collateralized.

<u>Credit Risk</u>: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the Placer County Treasury Investment Policy based on California Government Code Section 53635, the District's investment policy, or debt agreements, and the actual rating as of year end for each investment type. This table also identifies certain provisions of the California Government Code that address interest rate risk, credit risk, and concentrations of credit risk.

Authorized Investment Type	Maximum Maximum <u>Maturity</u>	Maximum Percentage of Portfolio	Investment in <u>One Issuer</u>
Local Agency Bonds or Notes	5 years	None	None
U.S. Treasury Obligations	5 years	None	100%
U.S. Agency Securities	5 years	None	75%
Bankers Acceptance	180 days	40%	30%
Commercial Paper	270 days	40%	40%
Negotiable Certificates of Deposit	5 years	30%	30%
Collateralized Certificates of Deposit	N/A	None	20%
Repurchase Agreements	1 year	25%	20%
Corporate Notes	5 years	30%	30%
Local Agency Investment Funds (LAIF)	N/A	40MM	40MM
CDARS Certificates of Deposit	N/A	30%	30%

The District's Trust investment policy requires all fixed income investments to be of investment grade quality or higher at purchase; that is, at the time of purchases, rated no lower than "BBB" by Standard and Poor's. At June 30, 2020, the Trust investments consisted of open and closed-end mutual funds, therefore there are no credit ratings to disclose.

NOTE 2 – CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

<u>Investments Authorized by Debt Agreements</u>: Investment of debt proceeds held by bond trustees are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the District's investment policy. The table below identifies the investment types that are authorized for investments held by bond trustees. The table also identifies certain provisions of these debt agreements that address interest rate risk, credit risk, and concentration of credit risk.

Authorized Investment Type	Maximum <u>Maturity</u>	Maximum Percentage <u>of Portfolio</u>	Maximum Investment in <u>One Issuer</u>
Placer County Investment Pool	Five years	None	None

<u>Interest Rate Risk</u>: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As of year end, the maximum average maturity of the investments contained in the County investment pool is five years.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the maturity date of each investment:

Investment Type	Weighted Average Maturity <u>(in Years)</u>
Placer County Investment Pool	0.93

The District's OPEB Trust (the "Trust") investments consisted of open and closed-end mutual funds, therefore, there are no significant interest rate risk related to the investments held, as there are no maturities related to the mutual funds held.

<u>Concentration of Credit Risk</u>: The District's investment policy places limits on the amount it may invest in any one issuer. At June 30, 2020, the District had no concentration of credit risk.

The District's Trust investment policy requires that not more than 5 percent of the Trust assets be invested in any single equity security or debt security. However, the limitation does not apply to the percentage of Trust assets invested in a single diversified mutual fund, nor does the limitation apply to obligations of the U.S. Government and its agencies or U.S. agency mortgage-backed pass-through securities. At June 30, 2020, the Trust investment had no holdings that exceeded 5% of the Trust assets.

NOTE 3 - FAIR VALUE MEASUREMENTS - INVESTMENTS

The following presents information about the Trust's and Foundation's assets and liabilities measured at fair value on a recurring basis as of June 30, 2020, and indicates the fair value hierarchy of the valuation techniques utilized by the Foundation to determine such fair value based on the hierarchy:

Level 1 - Quoted market prices or identical instruments traded in active exchange markets. Level 1 investments include mutual funds, corporate stocks, and real estate investment trusts.

Level 2 - Significant other observable inputs such as quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable or can be corroborated by observable market data. Level 2 investments include corporate bonds and U.S. Treasury notes.

Level 3 - Significant unobservable inputs that reflect a reporting entity's own assumptions about the methods that market participants would use in pricing an asset or liability. Level 3 investments include the investment in FCCC/Osher.

<u>Valuation Approach</u>: The District's mutual fund investments are generally classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices or broker or dealer quotations.

There were no changes in the valuation techniques used during the year ended June 30, 2020. There were no transfers of assets between the fair value levels for the year ended June 30, 2020.

The Trust is required or permitted to record the following assets at fair value on a recurring basis:

Description	Level 1	Level 2	Level 3	Total
Investment securities:				
Mutual Fund - Equities	\$ 4,665,951	\$ -	\$ -	\$ 4,665,951

Mutual Fund - Real estate	788,116			788,116
Total investment securities	<u>\$ 13,292,831</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 13,292,831</u>

The Foundation is required or permitted to record the following assets at fair value on a recurring basis:

Description	Level 1	Level 2	Level 3	<u>Total</u>
Investment securities:				
Mutual funds - equities	\$ 2,982,355	\$-	\$ -	\$ 2,982,355

Total investment securities	<u>\$ 6,985,172</u>	<u>\$ 1,327,642</u>	<u>\$ 666,519</u>	<u>\$ 8,979,333</u>

NOTE 3 – FAIR VALUE MEASUREMENTS - FOUNDATION INVESTMENTS (Continued)

The fair value of the funds held by FCCC is based upon the Foundation's proportionate share of the FCCC/Osher pooled investment portfolio (Level 3 inputs). Foundation management reviews the valuations and returns in comparison to industry benchmarks and other information provided by FCCC, but there is currently no visibility provided by FCCC to the specific listing of underlying investment holdings.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no changes in the valuation techniques used during the year ended June 30, 2020. There were no transfers of assets between the fair value levels for the year ended June 30, 2020.

The Foundation had no non-recurring assets and no liabilities at June 30, 2020, which were required to be disclosed using the fair value hierarchy.

NOTE 4 – RECEIVABLES

Receivables at June 30, 2020 are summarized as follows:

Unearned local revenue	1,925,826
Unearned Federal and State revenue	<u>14,153,115</u>
Total unearned revenue	<u>\$ 19,507,490</u>

NOTE 7 – LONG-TERM LIABILITIES

General Obligation Bonds: On June 21, 2007, the District issued Measure G, Series B SFID No. 1 bonds to fund the acquisition, construction and development of a new campus. Capital appreciation bonds of \$4,535,972 bear interest at rates ranging from 4.96% to 5.01%. Interest on such capital appreciation bonds is compounded semiannually each year. The capital appreciation bonds mature June 1, 2032 and are payable only at maturity. In 2015, the District issued refunding bonds which defeased serial bonds of the Series B SFID No. 1 General Obligation Bonds. The remaining balance of the defeased bonds at June 30, 2020 is \$6,820,000.

Accreted interest on the capital appreciation bonds was \$3,936,939 at June 30, 2020.

NOTE 7 – LONG-TERM LIABILITIES (Continued)

During the year ended June 30 2013, the Financing Corporation issued \$16,820,000 of 2013 General Obligation Refunding Bonds, Series A, with an effective interest rate of 2.37%, maturing August 1, 2029. Proceeds were used to advance refund a portion of the outstanding 2004 Series A SFID No. 1 General Obligation Bonds and to pay the costs of issuing the Series A Refunding Bonds. The Series A Refunding Bonds are general obligations of the District payable solely from *ad valorem taxes* upon all property within the Sierra Joint Community College District School Facilities Improvement District No. 1. For financial reporting purposes, the refunded debt has been considered defeased and therefore removed from the District's financial statements. The remaining balance of the defeased bonds at June 30, 2020 is \$17,035,000.

<u>Certificates of Participation</u>: During 2012, the Financing Corporation issued \$11,962,000 of Certificates of Participation (COPs) with an average interest rate of 2.29%. Proceeds were used to advance refund outstanding 1998, 2004 and 2007 COPs. The net proceeds related to the advance refunding issuance and fund balances from prior issuances totaling \$12,889,141 were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments and the 1998, 2004 and 2007 COPs were defeased. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. The remaining balance of the defeased bonds at June 30, 2020 is \$2,660,000.

NOTE 8 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLANS

General Information about the State Teachers' Retirement Plan

<u>Plan Description</u>: Teaching-certificated employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) – a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plans may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at http://www.calstrs.com/comprehensive-annual-financial-report.

Benefits Provided: The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit (DB) Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

CalSTRS 2% at 60

CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4 percent of final compensation.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January 1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a fulltime basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any three consecutive years of credited service.

CalSTRS 2% at 62

CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for three consecutive years of credited service.

<u>Contributions</u>: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

In June 2019, California Senate Bill 90 (SB 90) was signed into law and appropriated approximately \$2.2 billion in fiscal year 2018–19 from the state's General Fund as contributions to CalSTRS on behalf of employers. The bill requires portions of the contribution to supplant the amounts remitted by employers such that the amounts remitted will be 1.03 and 0.70 percentage points less than the statutorily required amounts due for fiscal years 2019–20 and 2020–21, respectively. The remaining portion of the contribution, approximately \$1.6 billion, was allocated to reduce the employers' share of the unfunded actuarial obligation of the DB Program.

California Assembly Bill 84, Chapter 16, Statutes of 2020, (AB 84) was signed into law in June 2020 and revised certain provisions of Teachers' Retirement Law enacted by SB 90. Specifically, AB 84 repurposed the aforementioned \$1.6 billion contribution originally intended to reduce employers' long-term liabilities, to further supplant employer contributions through fiscal year 2021–22. Pursuant to AB 84, employers will remit contributions to CalSTRS based on a rate that is 2.95% less than the statutory rate for fiscal year 2020–21 and 2.18% less than the rate set by the board for fiscal year 2021–22. Any remaining amounts must be allocated to reduce the employers' share of the unfunded actuarial obligation of the DB Program. The rate reduction for fiscal year 2019-20 under SB 90 was not changed by AB 84. The employer contribution rates set in statute and the CalSTRS board's authority to adjust those rates starting in fiscal year 2021–22 under the CalSTRS Funding Plan were not changed by the passage of SB 90 or AB 84. A summary of statutory contribution rates and other sources of contributions to the DB Program are as follows:

Members – Under CalSTRS 2% at 60, the member contribution rate was 10.25 percent of applicable member earnings for fiscal year 2019-20. Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 10.205 percent of applicable member earnings for fiscal year 2019-20.

In general, member contributions cannot increase unless members are provided with some type of "comparable advantage" in exchange for such increases. Under previous law, the Legislature could reduce or eliminate the 2 percent annual increase to retirement benefits. As a result of AB 1469, effective July 1, 2014, the Legislature cannot reduce the 2 percent annual benefit adjustment for members who retire on or after January 1, 2014, and in exchange for this "comparable advantage," the member contribution rates have been increased by an amount that covers a portion of the cost of the 2 percent annual benefit adjustment.

Employers – 17.10 percent of applicable member earnings. This rate reflects the original employer contribution rate of 18.13 percent under AB1469, reduced for the 1.03 percentage points to be paid on behalf of employers pursuant to SB 90.

Pursuant to AB 1469, employer contributions will increase from a prior rate of 8.25 percent to a total of 19.1 percent of applicable member earnings phased in over seven years starting in 2014. The new legislation also gives the CaISTRS board limited authority to adjust employer contribution rates from July 1, 2021 through June 2046 in order to eliminate the remaining unfunded actuarial obligation related to service credited to members prior to July 1, 2014. The CaISTRS board cannot adjust the rate by more than 1 percent in a fiscal year, and the total contribution rate in addition to the 8.25 percent cannot exceed 12 percent.

The CalSTRS employer contribution rate increases effective for fiscal year 2019-2020 through fiscal year 2045-46 are summarized in the table below:

Effective Date	Prior Rate	Increase	Total
July 01, 2019	8.25%	9.88%	17.10% ⁽¹⁾
July 01, 2020	8.25%	10.85%	16.15% ⁽¹⁾

June 30, 2046	8.25%	(2)	(2)
July 01, 2046	8.25%	Increase from prior ra	ate ceases in 2046-47

1. Pursuant to SB 90 and AB 84, the fiscal year 2018-19 state contribution of approximately \$2.2 billion made in advance on behalf of employers will be used to pay the contributions required by employers for the 2019-20, 2020-21 and 2021-22 fiscal years, such that employers will remit 1.030%, 2.950% and 2.180% less, respectively, than is required by the CalSTRS Funding Plan.

2. The CalSTRS Funding Plan authorizes the board to adjust the employer contribution rate up or down 1% each year, but no higher than 20.25% total and no lower than 8.25%.

The District contributed \$6,370,228 to the plan for the fiscal year ended June 30, 2020.

State – 10.328 percent of the members' creditable earnings from the fiscal year ending in the prior calendar year.

Also, as a result of AB1469, the additional state appropriation required to fully fund the benefits in effect as of 1990 by 2046 is specific in subdivision (b) of Education Code Section 22955.1. The increased contributions end as of fiscal year 2045-2046.

The state's base contribution of the Defined Benefit Program is calculated based on creditable compensation from two fiscal years prior. The state rate increased to 5.811% on July 1, 2019, to continue paying down the unfunded liabilities associated with the benefits structure that was in place in 1990 prior to certain enhancements in benefits reductions in contributions. Additionally, the enactment SB 90 will result in future supplemental contributions to be made by the state to pay down its portion of the unfunded actuarial obligation of the Defined benefit Program in fiscal years 2019-20 through 2022-23.

The CalSTRS state contribution rates effective for fiscal year 2019-2020 and beyond are summarized in the table below.

Effective Date	Base <u>Rate</u>	AB 1469 Increase For 1990 Benefit <u>Structure</u>	SBMA <u>Funding</u> ⁽¹⁾	Total State Appropriation to DB Program
July 01, 2019 July 01, 2020 July 01, 2021 to	2.017% 2.017%	5.811% 5.811% ⁽³⁾	2.50% 2.50%	$\frac{10.328\%^{(2)}}{10.328\%^{(2)}}$
June 30, 2046 July 01, 2046	2.017%	(4)	2.50%	(4)
and thereafter	2.017%	(5)	2.50%	(5)

(1) This rate does not include the \$72 million reduction in accordance with Education Code Section 22954.

(2) This rate does not include the \$2.2 billion supplemental state contribution on behalf of employers pursuant to SB 90. (3) In May 2020, the CalSTRS board exercised its limited authority to increase the state contribution rate by 0.5% of the creditable compensation effective July 1, 2020. However, pursuant to AB 84, the state suspended the board's rate-setting authority for state contributions for fiscal year 2020–21, thereby negating the board's rate increase of 0.5%.

(4) The CaISTRS board has limited authority to adjust state contribution rates annually through June 30, 2046 in order to eliminate the remaining unfunded actuarial obligation associated with the 1990 benefit structure. The board cannot increase the rate by more than 0.50 percent in a fiscal year, and if there is no unfunded actuarial obligation, the contribution rate imposed to pay for the 1990 benefit structure would be reduced to 0 percent.

(5) From July 1, 2046, and thereafter, the rates in effect prior to July 1, 2014, are reinstated, if necessary, to address any remaining 1990 unfunded actuarial obligation.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability State's proportionate share of the net pension liability	\$ 52,729,000
associated with the District	 28,767,000
Total	\$ 81,496,000

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school Districts and the State. At June 30, 2019, the District's proportion was 0.058 percent, which was a decrease of 0.001 percent from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$11,043,384 and revenue of \$8,835,632 for support provided by the State. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Contributions made subsequent to measurement date		6,370,228		
Total	\$	13,172,228	\$	6,318,000

\$6,370,228 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

2021	¢	357.050
2021	φ	357,050
2022	\$	(1,050,950)
2023	\$	577,050
2024	\$	1,203,050
2025	\$	(339,200)
2026	\$	(263,000)

Differences between expected and actual experience, changes in assumptions and changes in proportion and differences between District contributions and proportionate share of contributions are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of the June 30, 2019 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

<u>Actuarial Methods and Assumptions</u>: The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2018, and rolling forward the total pension liability to June 30, 2019. The financial reporting actuarial valuation as of June 30, 2018, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2018
Experience Study	July 1, 2010 through June 30, 2015
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%
Post-retirement Benefit Increases	2.00% simple for DB
	Not applicable for DBS/CBB

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant as an input to the process. The actuarial investment rate of return assumption was adopted by the CalSTRS board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Asset Class	Assumed Asset <u>Allocation</u>	Long-Term* Expected Real <u>Rate of Return</u>
Global Equity	47%	4.8%
Fixed Income	12	1.30
Real Estate	13	3.60
Private Equity	13	6.30
Absolute Return / Risk		
Mitigating Strategies	9	1.80
Inflation Sensitive	4	3.30
Cash / Liquidity	2	(0.40)

* 20-year geometric average

<u>Discount Rate</u>: The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount <u>Rate</u>: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	1%	Current	1%
	Decrease	Discount	Increase
	<u>(6.10%)</u>	<u>Rate (7.10%)</u>	<u>(8.10%)</u>
District's proportionate share of the net pension liability	<u>\$ 78,518,000</u>	<u>\$ 52,729,000</u>	<u>\$ 31,345,000</u>

<u>Pension Plan Fiduciary Net Position</u>: Detailed information about the pension plan's fiduciary net position is available in the separately issued CalSTRS financial report.

NOTE 9 – NET PENSION LIABILITY – PUBLIC EMPLOYER'S RETIREMENT FUND B

General Information about the Public Employer's Retirement Fund B

<u>Plan Description</u>: The schools cost-sharing multiple-employer defined benefit pension plan Public Employer's Retirement Fund B (PERF B) is administered by the California Public Employees' Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and noncertified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at

° https://www.calpers.ca.gov/docs/forms-publications/cafr- 2019.pdf.

<u>Benefits Provided</u>: The benefits for the defined benefit plans are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

<u>Contributions</u>: The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer's benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when district's first join the PERF B, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2020 were as follows:

Members – The member contribution rate was 7 percent of applicable member earnings for fiscal year 2019-20.

Employers – The employer contribution rate was 19.72 percent of applicable member earnings.

The District contributed \$4,596,942 to the plan for the fiscal year ended June 30, 2020.

NOTE 9 – NET PENSION LIABILITY – PUBLIC EMPLOYER'S RETIREMENT FUND B (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability of \$46,157,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school Districts. At June 30, 2019, the District's proportion was 0.158 percent, which was a decrease of 0.001 percent from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$9,836,220. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows <u>of Resources</u>		Deferred Inflows of Resources	
Difference between expected and actual experience	\$	3,353,000	\$	-
Changes of assumptions		2,197,000		-
Net differences between projected and actual earnings on investments		-		428,000
Changes in proportion and differences between District contributions and proportionate share of contributions		-		448,000
Contributions made subsequent to measurement date		4,596,942		
Total	\$	10,146,942	\$	876,000

\$4,596,942 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

2021	\$ 3,653,500
2022	\$ 480,500
2023	\$ 418,500
2024	\$ 121,500

Differences between expected and actual experience, changes in assumptions and changes in proportion and differences between District contributions and proportionate share of contributions are amortized over a closed period equal to the average remaining service life of plan members, which is 4 years as of the June 30, 2018 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

<u>Actuarial Methods and Assumptions</u>: The total pension liability for the Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2018, and rolling forward the total pension liability to June 30, 2019. The financial reporting actuarial valuation as of June 30, 2017, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2018
Experience Study	June 30, 1997 through June 30, 2015
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.15%
Consumer Price Inflation	2.50%
Wage Growth	Varies by entry age and service
Post-retirement Benefit Increases	Contract COLA up to 2.00% until
	Purchasing Power Protection Allowance
	Floor on Purchasing Power applies
	2.50% thereafter

The mortality table used was developed based on CalPERS specific data. The table includes 20 years of mortality improvements using Society of Actuaries 90% of scale MP 2016. For more details on this table, please refer to the 2017 experience study report.

All other actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CaIPERS' website.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

(1) An expected inflation rate of 2.00% used for this period

(2) An expected inflation rate of 2.92% used for this period

<u>Discount Rate</u>: The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The results of the crossover testing for the Plan are presented in a detailed report that can be obtained at CaIPERS' website.

NOTE 9 – NET PENSION LIABILITY – PUBLIC EMPLOYER'S RETIREMENT FUND B (Continued)

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected cash flows of the Plan. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the Plan's asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount <u>Rate</u>: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS

<u>Plan Description</u>: The District provides lifetime post-employment healthcare benefits (OPEB) under the Sierra Joint Community College District Futuris Substantive Plan for certain groups of employees who retire from the District. The benefits provide retired employees and eligible dependents with health insurance coverage. When the retiree is eligible for Medicare, the District provides insurance coverage supplemental to Medicare. Eligible requirements and benefits may vary according to hire date. The District provides the OPEB benefits through a single employer defined benefit OPEB plan that is administered by Benefit Trust Company. OPEB provisions are established and amended per contractual agreement with employee groups. The plan does not issue separate financial statements. The following is a description of the current retiree benefit plan:

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS (Continued)

Academic Employees

- Employees hired before November 27, 1984 receive 100% paid benefits upon retirement from the District.
- Employees hired after November 27, 1984, but before July 2, 1988, must have completed five years of service to receive 100% paid benefits.
- Employees hired after July 1, 1988, but before July 2, 1994, must have completed twelve years of service to receive 100% paid benefits.
- Employees hired after July 1, 1994 may purchase benefits at their own expense.

Classified Employees

- Employees hired before December 10, 1985 receive 100% paid benefits upon retirement from the District.
- Employees hired after December 10, 1985, but before July 2, 1986, must have completed five years of service to receive 100% paid benefits.
- Employees hired after July 1, 1986, but before July 2, 1994, must have completed 15 years of service to receive 100% paid benefits.
- Employees hired after July 1, 1994 may purchase benefits at their own expense.

During the year ended June 30, 2008 the District signed an irrevocable trust (the Trust) agreement. The District appointed a Board of Authority with authority to make decisions on behalf of the District with respect to the *Futuris Public Entity Investment Trust Program*. Benefit Trust Company was appointed as the custodian and trustee to administer the *Futuris Public Entity Investment Trust*

The Board of Authority is comprised of the following six positions: Vice President, Administrative Services, Director, Human Resources, Vice President of Student Services, 1 Federation of United School Employees Member, 1 Sierra College Faculty Association Member, 1 Sierra College Management Association Member and 1 retiree.

Employees covered by benefit term: The following is a table of plan participants at June 30, 2020:

	Number of <u>Participants</u>
Inactive Employees/Dependents Receiving Benefits Inactive Employees/Dependents Entitled to but not yet Receiving Benefits Active Employees	300 - <u>26</u>
	326

<u>Contributions</u>: The contribution requirements of plan members and the District are established and may be amended by the Board of Authority and by contractual agreement with employee groups. The District's plan members contribute 1% of base pay to the plan with a matching 1% from the employer. For the year ended June 30, 2020, employer contributions consist of \$22,176 paid from the General Fund. Additionally, the trustee may amend or modify the benefits if the contributions to the trust and reserves of the trust are insufficient to maintain the benefits of participants and dependents.

NOTE 10 - OTHER POSTEMPLOYMENT BENEFITS (Continued)

<u>OPEB Plan Investments</u>: The plan discount rate of 5.25 percent was determined using the following asset allocation and assumed rate of return:

Asset Class	Percentage of <u>Portfolio</u>	Rate of <u>Return</u> *
Equities	37%	2.7%
Fixed income	57%	2.1%
Alternatives	6%	0.4%

* Geometric average

Rolling periods of time for all asset classes in combination we used to appropriately reflect correlation between asset classes. This means that the average returns for any asset class do not necessarily reflect the averages over time individually, but reflect the return for the asset class for the portfolio average. Additionally, the historic 30 year real rates of return for each asset class along with the assumed long-term inflation assumption was used to set the discount rate. The investment return was offset by assumed investment expenses of 25 basis points. It was further assumed that contributions to the plan would be sufficient to fully fund the obligation over a period not to exceed 30 years.

Money-weighted rate of return on OPEB plan investments

5.82%

The money-weighted rate of return expresses investment performance, net of OPEB plan investment expenses, adjusted for the changing amounts actually invested.

<u>Actuarial Assumptions</u>: The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Valuation date	June 30, 2019
Measurement date	June 30, 2020
Census data	The census was provided by the District as of June 30, 2019
Actuarial cost method	Entry age normal
Amortization methods	Flat dollar amount allocation with 18 year closed amortization
Inflation rate	2.75%
Investment rate of return	5.25%
Discount rate	5.25%; assuming contributions would be sufficient to fully fund the obligation over a period not to exceed 30 years.

NOTE 10 - OTHER POSTEMPLOYMENT BENEFITS (Continued)

Mortality	For certificated employees the 2015 CalSTRS mortality tables were used. For classified employees the 2017 CalPERS active mortality for miscellaneous employees were used.
Spouse relevance	To the extent not provided and when needed to calculate benefit liabilities, 80% of retirees assumed to be married at retirement. After retirement, the percentage married is adjusted to reflect mortality.
Spouse ages	To the extent spouse dates of birth are not provided and when needed to calculate benefit liabilities, female spouse assumed to be three years younger than male.
Turnover	For certificated employees the 2015 CalSTRS termination rates were used. For classified employees the 2017 CalPERS termination rates for school employees were used.
Service requirement	For certificated employees 100% at 15 years of service. For classified employees 100% at 15 years of service. For management 100% at 12 years of service.
Retirement rates	For certificated employees the 2015 CalSTRS retirement rates were used. For classified employees the 2017 CalPERS retirement rates for school employees were used.

<u>OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to</u> <u>OPEB</u>: For the year ended June 30, 2020, the District recognized OPEB expense of \$2,706,277. At June 30, 2020, the District reported deferred outflows or resources and deferred inflow of resources related to OPEB from the following sources:

	erred Outflows of Resources		erred Inflows <u>Resources</u>
Net difference between projected and actual earnings of OPEB plan investments	\$ 27,323	<u>\$</u>	<u>56,859</u>

Amounts reported as deferred outflows of resources related to the net difference between projected and actual earnings of OPEB plan investments will be amortized over five years and recognized in OPEB expense as follows:

2021 2022 2023 2024	\$	7,384 7,384 7,384 7,384
	\$	29,536

Differences between expected and actual experience and changes in assumptions are amortized over the average remaining service life of plan members, which is one year as of the June 30, 2020 measurement date. At June 30, 2020, the District recognized an increase to the net OPEB liability in the amount of \$985,955 related to changes in assumptions and a decrease to the net OPEB liability in the amount of \$7,436 related to differences between expected and actual experience.

NOTE 11 – COMMITMENTS AND CONTINGENCIES

<u>Contingent Liabilities</u>: The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

The District has received Federal and State funds for specific purposes that are subject to review or audit by the grantor agencies. Although such audits could results in expenditure disallowances under terms of the grants, it is management's opinion that any required reimbursements or future revenue offsets subsequently determined will not have a material effect on the District's financial statements.

NOTE 11 – COMMITMENTS AND CONTINGENCIES (Continued)

<u>Operating Leases</u>: Future minimum rental payments under all noncancelable operating leases with initial or remaining lease terms in excess of one year as of June 30, 2020, are as follows:

Year Ending June 30.	
2021 2022 2023 2024 2025	\$ 853,213 813,891 480,921 102,736 1,962
	<u>\$ 2,252,723</u>

At June 30, 2020, the District's operating lease expenses totaled \$866,724.

<u>Construction Commitments</u>: As of June 30, 2020, the District had approximately \$36,583,647 in outstanding commitments on construction contracts.

NOTE 12 – JOINT POWERS AGREEMENTS

Sierra Joint Community College District participates in Joint Power Agreements ("JPAs"), with Alliance of Schools for Cooperative Insurance Programs ("ASCIP") for property, liability and workers' compensation insurance, Self-Insured Schools of California (SISC III) for health and welfare benefits and Schools Excess Liability Fund ("SELF") for excess liability insurance for the operation of common risk management and insurance programs. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years. There have been no significant reductions in insurance coverage from coverage in the prior year. The relationship between the District and the JPAs is such that the JPAs are not component units of the District for financial reporting purposes.

The JPAs are governed by boards consisting of representatives from member district. The boards control the operations of the JPAs, including the selection of management and approval of operating budgets, independent of any influence by the member district beyond their representation on the governing board. The District pays a premium commensurate with the level of coverage requested.

Member districts share surpluses and deficits proportionate to their participation in the JPAs. The JPAs are independently accountable for their fiscal matters and maintain their own accounting records. Budgets are not subject to any approval other than that of the governing board.

NOTE 14 – DONATED FROM COLLEGE DISTRICT

The Foundation's Statement of Activities included an amount Donated from College District totaling \$305,991 for the year ended June 30, 2020. This consisted of accounting and management support, comprehensive insurance, office space, and other miscellaneous internal services as provided by the District.

The valuation of such services and facilities is determined based upon various factors including employee salaries and benefits, office rent, and certain other operating expenses.

NOTE 15 – ENDOWMENT NET ASSETS - FOUNDATION

Changes in endowment net assets for the fiscal year ended June 30, 2020, consisted of the following:

	Net Assets Without Donor <u>Restriction</u>			Net Assets Nith Donor <u>Restriction</u>	<u>Total</u>
Endowment net assets, beginning of year Change in fair value of investment	\$	1,177,204	\$	5,364,423	\$ 6,541,627

Total	<u>\$ 1,169,813</u>	<u>\$ 6,206,333</u>	<u>\$ 7,376,146</u>		

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Foundation to retain as a fund of perpetual duration. There were zero individual endowment funds with such deficiency as of June 30, 2020.

NOTE 16 – COVID-19 IMPACT

In December 2019, a novel strain of coronavirus surfaced (COVID-19) and spread around the world, with resulting business and social disruption. In response to the pandemic and in compliance with various state and local ordinances, the District closed physical campuses and transitioned to a distance learning model. On March 13, 2020, the Governor of California issued Executive Order N-26 – 20, guaranteeing state funding to support the continued payment of salaries and benefits to all employees through June 30, 2020.

The operations and business results of the District could be materially adversely affected in the future including a reduction in the level of funding and impact to the timing of cash flows. In addition, significant estimates may be adversely impacted by national, state and local events designed to contain the coronavirus. Debt ratings for outstanding issuances may further be impacted. For the 2021 school year, the District is offering instruction in formats consistent with local health guidelines. Throughout the pandemic the District has put into practice a number of safety measures to protect students and employees and will continue to revise them as needed.

Management's Responsibility

Management is responsible for compliance with the requirements of state laws and regulations.

Auditor's Responsibility

Our responsibility is to express an opinion on Sierra Joint Community College District's compliance with state laws and regulations as listed above based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the *California State Chancellor's Office's California Community College Contracted District Audit Manual* (Audit Manual). Those standards and the Audit Manual require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on Sierra Joint Community College District's compliance with the state laws and regulations listed above occurred. An audit includes examining, on a test basis, evidence about Sierra Joint Community College Districts and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with state laws and regulations. However, our audit does not provide legal determination of Sierra Joint Community College District's compliance with those requirements.

Opinion with State Laws and Regulations

In our opinion, Sierra Joint Community College District complied, in all material respects, with the compliance requirements referred to above that are applicable to the state laws and regulations for the year ended June 30, 2020.

Purpose of this Report

This report is intended solely to describe the scope of our testing of compliance and the results of that testing based on requirements of the *Contracted District Audit Manual*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees Sierra Joint Community College District Rocklin, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, the discretely presented component unit and the fiduciary activities of Sierra Joint Community College District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Sierra Joint Community College District's basic financial statements, and have issued our report thereon dated February 1, 2021. The financial statements of Sierra College Foundation were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with Sierra College Foundation.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Sierra Joint Community College District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sierra Joint Community College District's internal control. Accordingly, we do not express an opinion on the effectiveness of Sierra Joint Community College District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Sierra Joint Community College District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Board of Trustees Sierra Joint Community College District Rocklin, California

Report on Compliance for Each Major Federal Program

We have audited Sierra Joint Community College District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on Sierra Joint Community College District's major federal program for the year ended June 30, 2020. Sierra Joint Community College District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the Federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Sierra Joint Community College District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Sierra Joint Community College District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of Sierra Joint Community College District's compliance.

Opinion on Each Major Federal Program

In our opinion, Sierra Joint Community College District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of Sierra Joint Community College District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Sierra Joint Community College District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Sierra Joint Community College District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance that a material weakness in internal control over compliance with a type of compliance is a deficiency or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
