**General Fund Narrative Summary**

Exhibit B

- 1 Tentative Budget:** The documents presented in this 2021-22 Tentative Budget package should be viewed as preliminary in nature. The final budget for the fiscal year will be brought to the Board of Trustees for adoption in September 2021.
- 2 Definition of Community Supported Status (Basic Aid):** When total property tax and student fee revenues received by a district exceed the state funding guarantee, the district becomes what is known as "Community Supported" or "Basic Aid." The District was in Community Support status for 2020-21 and is expected to remain in Community Supported status in the future, barring major changes in the related budget factors. The District is assuming a 2.5% increase in property tax revenue for 2021-22.
- 3 State Budget:** In his 2021-22 May Revision, Governor Newsom states that California is "turning the corner" following the pandemic-induced recession. The State Budget has gone from a deficit of \$54B a year ago to a \$75.7B surplus based on current projections. Overall, the State's economic and revenue outlook has improved markedly compared to projections developed early in the pandemic. For the California Community Colleges, the May Revision proposal contains a number of ongoing and one-time investments. The District will continue to monitor State Budget deliberations and incorporate relevant information into the District's Adopted Budget which will be presented to the Board for approval in September.
- 4 COVID-19 Impacts:** The pandemic has had major impacts on the operation of the District. Through great efforts, instruction and support for students has gone uninterrupted. However, this was accomplished through a rapid conversion of nearly all classes to online delivery and also an abrupt shift to remote operations for most employees. The District's success in navigating these challenges is a testament to the resilience, dedication, and commitment of District staff. From a budgetary perspective the impacts of the pandemic have varied widely, resulting in both additional costs and savings. Many of the additional costs have been covered by emergency funding provided to the District (see bullet 5). Anticipated savings have largely been the result of cancellation or delay in campus spending for a range of activities and items that have resulted in a larger than usual surplus for the 2020-21 fiscal year.
- 5 Emergency Funding:** The Federal and State Government are providing schools, colleges, universities with emergency assistance funding to address exceptional costs resulting from the COVID-19 pandemic. For the District, this funding includes nearly \$22M for emergency student grants and \$32M for institutional support costs. To date, the District has spent nearly \$8M on emergency student grants and approximately \$7M on information technology to support online instruction and telework capabilities, professional development for faculty related to online learning, public health expenses, additional custodial expenses, reimbursement for lost revenues, and facilities improvements to allow for social distancing.
- 6 Reserves (Fund Balance):** The Unrestricted General Fund Uncommitted Reserve balance is projected to be \$18.8M or 13.2% of total General Fund expenditures of \$142M.
