Contiguous

Visible (Natural & man-made) boundaries

Respect voters' choices / continuity in office

Planned future growth

Use Current districts as basis

"Communities of Interest"

Under the California Elections Code, "community of interest" has a very specific definition in the context of districting and redistricting cities and counties:

A "community of interest" is a population that shares common social or economic interests <u>that should be included within a single district for purposes of its effective and fair representation</u>.

Communities of interest do not include relationships with political parties, incumbents, or political candidates.
