JOB TITLE: Athletic Trainer
PAY GRADE: CL 23
LAST REVISED: 06/01/07

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job. Additional or different duties from the ones set forth below may be required to address changing business needs/practices.

SUMMARY DESCRIPTION
Provides services for the prevention and care of student athlete injuries; provides athletic training support, treatment, and rehabilitation services for District sports team activities.

REPRESENTATIVE DUTIES - The following duties are typical for this classification. Incumbents may not perform all of the listed duties and/or may be required to perform additional or different duties from those set forth below to address business needs and changing business practices.

1. Identifies an athlete’s pre-existing conditions and history of injury and takes measures to prevent injury by taping, bracing, wrapping, or padding athletes; inspects and palpates athletes for localized and generalized signs of injury.
2. Fabricates and applies adhesive tape, elastic wrap, and protective pads to support and protect existing or potential injuries; tapes, treats, and evaluates injuries during games; administers first aid when needed and works with physician or emergency personnel to ensure appropriate medical care to injured athletes.
3. Performs range-of-motion, muscle strength, neurological, ligament and capsular stress tests, postural tests, and tests for specific pathologies; determines nature of injury or condition and refers to medical specialist when appropriate.
4. Monitors environmental conditions including temperature, humidity, air quality, and lighting at athletic facilities and advises coaches to modify or cancel practices if environmental conditions are unsafe.
5. Monitors athletic equipment and fields to ensure safe playing conditions; monitors practices to ensure appropriate and safe training and conditioning of athletes; communicates with coaches regarding status of injured athletes, rehabilitation progress, or predisposition to injury.
6. Maintains current knowledge regarding prevention of athletic injuries, evaluation techniques and skills, and rehabilitation, treatment, and reconditioning protocols.
7. Ensures appropriate use of medication by athletes; counsels athletes in alcohol and drug abuse, tobacco use, sexually transmitted diseases, diet, nutrition, and body weight management; makes appropriate medical referrals; takes measures to prevent the transmission of communicable disease.
8. Develops emergency plans and ensures appropriate emergency equipment is available; assesses emergency situations involving respiratory or cardiac arrest, external and internal bleeding, spinal cord injuries, musculoskeletal injuries, medical emergencies, and environmental emergencies; conducts primary injury survey including recognition of vital signs, assessment of the unconscious athlete, musculoskeletal and neurological assessment; contacts appropriate medical personnel for care and transport of injured athlete.
9. Administers appropriate first aid including CPR, head and neck stabilization, controlling of external
bleeding, managing of internal bleeding, treating of shock, monitoring of concussions, immobilization of suspected fractures and dislocations, and treatment of hyperthermia; cleans and bandages wounds; complies with OSHA regulations regarding exposure to blood and bodily fluids; works with team physician to design and implement rehabilitation, treatment, and reconditioning programs.

10. Instructs and supervises athletes in the use of rehabilitation equipment and the performance of rehabilitation exercises; administers and supervises the use of therapeutic equipment; assists physician in determining when an athlete can return to full sports participation using established criteria.

11. Maintains daily treatment records; completes injury reports or accident reports; ensures that each athlete has an appropriate pre-participation physical evaluation and is cleared to participate; ensures each athlete has completed an emergency card, risk acknowledgement form, and other documentation prior to participation; takes inventory of athletic training supplies and orders supplies when necessary.

12. Recruits and counsels athletic training students; instructs athletic training students in the fundamentals of sports medicine including taping, anatomy, first aid, modality application, evaluation, and rehabilitation; evaluates competency of athletic training students and may supervise the performance of certain tasks.

13. Acts as host athletic trainer for all teams competing at District sites by providing water and ice for injuries; provides athletic trainer support for football games at home and away; acts as liaison to visiting teams’ athletic trainers to ensure access to team physician or other necessary services.

14. Performs related duties as required.
