## Definition of Terms

**Basic Skills:** A general term describing courses that provide instruction in foundation skills necessary for entry into college-level programs. May be “degree credit,” “noncredit,” or “non-degree credit” for purposes of applicability to degrees (See also “Precollegiate basic skills”). May be in an academic or occupational department.

**Census:** The number of students enrolled in a full semester course on the “census date.”

**Census Date:** The point at which 20% of a course has elapsed. For standard semester courses, this is the Monday of the third week (Tuesday if Monday is a holiday).

**Degree Credit:** Course credit applicable to the associated degree.

**Enrollments:** The number of “seats” filled at the institution. Each course enrollment is counted separately. Different from “headcount” or “FTES” (see below).

**FTES:** “Full time equivalent students.” Each “FTES” equals fifteen credit hours per week of instruction, whether taken by one or several students. So total FTES for a district or department equals all credit hours enrolled, divided by 15.

**FTEF:** “Full time equivalent faculty.” Each “FTEF” equals fifteen units of instructional loading, regardless of whether they are taught by full- or part-time faculty. It is a common expression of the size of the faculty as a whole, but not of their number.

**Headcount:** The number of students enrolled. Each student who “comes in the door” counts as one, regardless of the number of units in which that student is enrolled. A headcount may be “duplicated” when a student attends more than one site.

**Matriculation:** The process of bringing a student through the institution and on to success; includes admission, assessment, orientation, counseling and follow-up. Provides funding for research and training of staff.

**Noncredit:** Courses in special categories that are not designed to apply to a degree or preparation for a degree. Sierra emeritus courses and other courses numbered 800-899.

**Non-Degree Credit:** Credit given for certain courses that are below the level of an associate-degree applicable course. Most, but not all of these are basic skills courses. Sierra courses numbered 500-799.

**Persistence:** The percentage of students who enroll in the next term out of the students enrolled in a first term. Can be computed fall-to-spring, spring-to-fall, or sometimes fall-to-fall.

**Precollegiate Basic Skills:** Preparatory courses in reading, writing, computation, or ESL. These are always also non-degree credit.

**Productivity:** A measure of efficiency that divides “Weekly Student Contact Hours” (WSCH, pronounced “wish”) by Full-time equivalent faculty (FTEF). The higher the number, the more students served by each FTEF, and the lower the cost to the district.

**Retention:** The percentage of students enrolled after the course census date who earn any grade (A,B,C,D,F,CR,NC).

**Success:** A grade of A, B, C, or CR at end-of-term.

**Student Educational Plan (SEP):** A plan completed with the help of a counselor that maps out the courses, services, and activities a student should undertake in order to meet his or her academic goals. It may be periodically updated as student goals change.

**Transfer Initiated:** Students who succeed in at least one mathematics or English course at the associate degree level or above.

**Transfer Directed:** Students who complete one or more university-transferable mathematics or English courses.

**Transfer Prepared:** Students who complete 60 or more units of university-transferable coursework.

**Transfer Ready:** Students who complete 60 or more units of university-transferable coursework, including at least one mathematics and one English course.

**Weekly Student Contact Hours (WSCH, pronounced “wish”):** The number of hours spent in class in a week. Used in the calculation of FTEF (see above) and, ultimately, in the calculation of the District’s income.

### Students Served by Disabled Students Programs & Services

2014/15 - 2020/21, source: CCC Datamart

#### Disabled Students Programs and Services

**Services available to all students:** Counseling- academic, career and personal, Tutoring, Writing Center, Career Development Center and Career Connections including vocational testing, Transfer Center, Financial Aid, EOPS, Dormitories, Skill development and study skills classes, Personal Development classes- college success and career planning, Assessment Center, Health Services, Veterans Affairs, Children's day care center

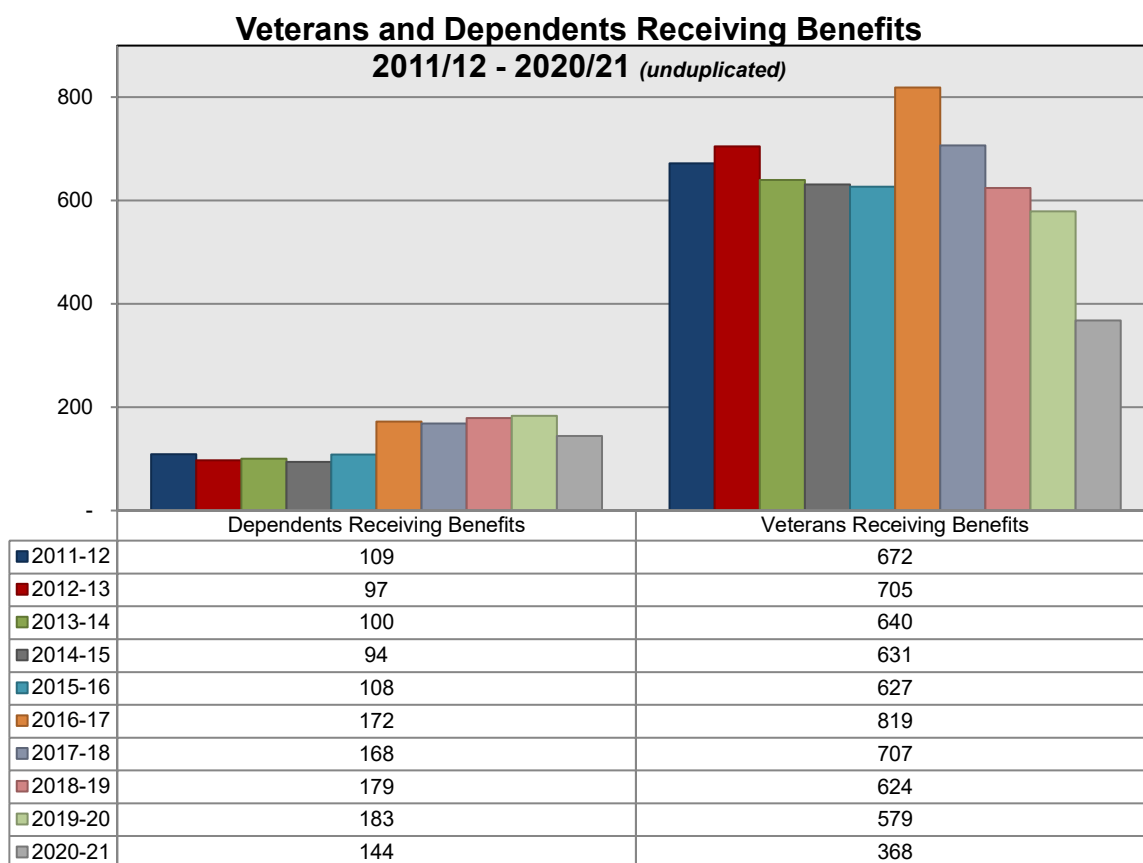

**Services and accommodations for students with verified disabilities:** Priority registration, Disability counseling, Academic counseling, Test taking facilitation, Vocational counseling, Student Education Plans (S.E.P.), Class and assessment accommodations, Assistive Technology

**Blind/Low Vision Services available:** Priority registration, Recorded textbooks (R.F.B.&D.), CCTV, Braille services, Readers, Text enlargements, Assistive Technology, Note-takers, Test proctoring

**Deaf and Hard of Hearing Services available:** Interpreter Services, Note-taking, Phonic Ear

**Physical Disabilities/Mobility Impaired Services available:** Mobility assistance, Classes offered: Adaptive Physical Education (PE 71), Individualized Exercise (PE 72), Adaptive Aquatics (PE 73)

## Outcome Measures - District

The Sierra College Veterans Educational Services Office is the liaison to the U.S. Dept. of Veterans Affairs for educational benefits. To be eligible, a veteran must have served on active duty for a minimum of 90 days or discharged with a service connected disability; 15 years must not have passed since discharge or release. The veteran must have served under conditions other than dishonorable in order to be eligible for assistance. Before the college will process any student's GI Bill educational program, he or she must be fully matriculated, with all transcripts on file and required tests taken.

Sierra College offers Veteran's educational benefits to eligible veterans, reservists, and dependents for most courses. Benefits may be paid for courses that are required for the student's declared program of study on file in the Sierra College VA Office. All students who wish to receive VA education benefits MUST complete the matriculation process. Students receiving benefits must be aware of and maintain satisfactory progress throughout their program of study in accordance with Sierra College and VA Standards of Progress.

## Outcome Measures - District

**Students Served by Extended Opportunity Programs and Services, 2014/15 - 2020/21**

<http://www.cccco.edu/divisions/tris/mis/reports.htm>

### Extended Opportunity Programs and Services (EOPS)

EOPS is a college success, counseling support program for low income and educationally disadvantaged students. The program provides access to a college education to students regardless of their economic, social and educational status. EOPS makes available to all qualified students a program of academic support by providing academic, career and personal counseling, instruction and tutoring as needed to ensure college success. A book voucher provides monies toward the cost of books each semester. Transportation costs (parking permits, bus passes) and cafeteria meal cards may also be offered to eligible students (if funding permits).

If you are a single parent, you may also qualify for the Cooperative Agencies Resources for Education (CARE) program, a component of EOPS. This program provides educational support services for the academically under prepared, single parent population who are receiving benefits through CalWORKs and are EOPS eligible. Additional grants for eligible CARE students may also be awarded (if funding permits).

### Sierra Community College District

The Sierra Community College District includes all of Placer and Nevada Counties and portions of Sacramento and El Dorado Counties and is located east of Sacramento, CA and southwest of Reno, NV. It serves an economy as diverse as its population and geographical district. Construction, retail business, technology and service industries have come to characterize the district's economy. In recent years, Placer and Nevada Counties have been two of California's fastest growing areas. Placer County is currently the number one job-producing county in the United States.

For over half a century, Sierra College has offered general education and technical courses. The 240-acre main campus is off I-80 in Rocklin. Other facilities include a 105 acre Nevada County Campus in Grass Valley, a center in Roseville named Roseville Gateway, and the Tahoe Truckee Campus in Truckee. Sierra has a national reputation based on excellence in such academic areas as computer science, mathematics, computer integrated electronics, nursing, and early childhood education. Sierra offers Associate of Arts and Associate of Science degrees, along with technical training and certificates in over 70 areas and career fields. In addition, Sierra offers the first two years of pre-professional programs including Medicine, Law, Engineering, Computer Science, Education, and Business Administration.

The District continues to experience dramatic growth and change, and with the ongoing development of computer and information technologies, alternative delivery systems for educational and student services are evolving, making education more accessible. Sierra College continues to use technology, adapting to meet the ever-changing needs of today's students and promote learning as a lifelong process.

## Sierra College Foundation

**\*\* Note:** For 2010-11, \$1,018,650 was reclassified from 'endowment' and moved to 'unrestricted net assets' at the request of our auditors.

**Raised** - This includes all donations, contributions and fundraising received by the Foundation. This does not include services provided by SJCCD.

**Scholarships** - This includes all payments to Students for support.

**Grants** - This includes all payments to SJCCCD and all other academic support.

**Endowment** - This is the balance of the principal portions of all TRUE ENDOWED funds at 6/30. This does not include Board Designated or the earnings from any endowed funds.

As an independent, non-profit corporation dedicated to project development, student assistance and educational achievement, the Sierra College Foundation is supported by financial contributions and activities. Donations are channeled toward student scholarships, facility projects and other community needs.
