

ATTENTION HDEV 5, 10, 12, and 19 STUDENTS

Legislation (SB 792), which began in the fall of 2016, affects all students completing activities in childcare settings. You will need to complete the steps listed below to remain in these courses. Students without immunization clearance as well as supporting documentation will be **dropped on the first day of class**.

_____ 1. Contact your former and current health care providers to gather documentation for the following current vaccines OR to make appointments to complete the following (see Sierra College Health Center cost information included at the end of this flyer):

- ✓ Measles
 - Proof of 2 MMR vaccines after one year of age OR
 - Laboratory proof of immunity
- ✓ Pertussis
 - Proof of Tdap vaccine within the last 10 years and remaining current through the end of the current semester
- ✓ Influenza
 - Vaccine must be received between August 1 and December 1. (Generally available from September/October through March/April depending on the year.) This immunization may be declined by attaching a written statement to documented immunizations.
- ✓ Proof of freedom from tuberculosis no older than 1 year but must remain current through the semester
- ✓ For HDEV 10 Students Only:
 - Print out a Health Screening Report LIC 503 (see website below) and have it completed by your physician or the Sierra College Health Center. The cost of a physical at Sierra is \$10. This form cannot be completed more than one year prior to January 23rd, 2022.
<https://www.cdss.ca.gov/Forms/English/LIC503.PDF>

_____ 2. Contact the Sierra College Health Center as soon as possible to make an appointment to complete vaccinations OR if vaccinations are complete as listed above, to obtain Early Childhood Vaccine and Tuberculosis Clearance for the course in which you will enroll.

- Please note that if you are enrolled in HDEV 10 for the spring semester, this form **MUST** be completed and presented as well as all the documentation needed to get this clearance at the time of your orientation Saturday, December 11th, 2021 per instructions in Online Course Schedule or you will be dropped from the course.

_____ 3. For HDEV 5 and 12 students: Compile both your COMPLETED Sierra College Early Childhood Vaccine and Tuberculosis Clearance as well as all the documentation needed to get this clearance and make two sets of copies. Bring these with you to the first class session and submit to the instructor; you will not receive these back, so please keep the originals for your own records. If you do not bring these on the first day of class, you will be dropped from the course. For HDEV 10 students, please add your Health Report to this and bring all documents to the pre-semester orientation or you will be dropped from the class.

COVID VACCINATION INFORMATION

Lab school locations may require proof of vaccination. If you are unvaccinated and all placements or all *available* placements require a Covid vaccine, you will not be able to remain in the course. Each school has experienced shifts in the requirements. This can and may continue to change during the semester.

Contact your instructor of record if you have any questions regarding these requirements!

SIERRA COLLEGE HEALTH SERVICES

Rocklin Campus

(916) 660-7490

Winstead Building L-183
