Financial Data as of September 30, 2022

Introduction

In the 2018 June primary election, voters in Placer, El Dorado, and Sacramento counties approved Measure E, the first bond approved for the Rocklin Campus since 1957. Measure E provides \$350 million in facilities bond funding and represents the majority of funding available to implement planned facilities improvements at Sierra College's Rocklin Campus. In addition, Sierra College will supplement Measure E bond funds with state facilities bond funding, proceeds from the development of properties owned by the college, and other funds from its annual operating budget. Taken together, approximately \$500 million will be invested over the next decade to support new construction and modernization of Rocklin Campus facilities. This construction program will create modern, comfortable, and inspiring classrooms, offices, and gathering places which will allow Sierra College to serve future generations of area residents. These projects will also address traffic and parking issues which impact the campus and surrounding areas. In the following pages, *The Rocklin Campus Facilities Master Plan Implementation Report: Fiscal Year 2022/2023 First Quarter* provides an update on this historic construction program.

Active Projects

A project is "Active" when District staff are actively planning for the start of design or have started to expend funding on the project.

Active projects during the first quarter of FY 22/23 include:

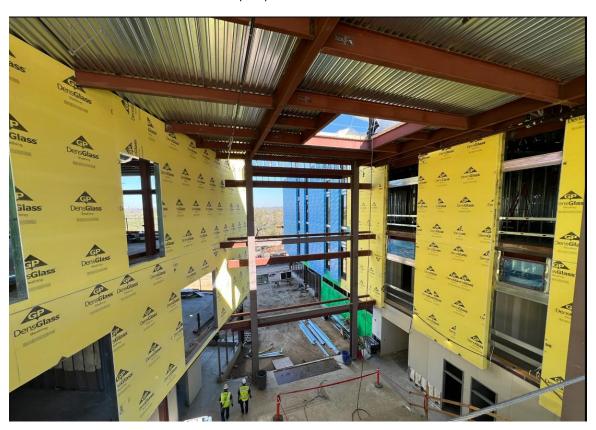

- Infrastructure
- New Instructional Building
- Gymnasium Modernization
- Student Housing
- Science Building Phase 1
- Applied Technology Center Modernization
- Weaver Hall Modernization
- Campus Wide Improvements

The following chart provides current budget and schedule information for all active projects as of the date noted. Throughout the life of the Facilities Master Plan (FMP) Implementation program, regular adjustments to project budgets, scope, and scheduling are anticipated. The Project Financial Report column "Paid Project Expenses to Date" captures project expenditures as of the date of this report. Expenditures and projected final costs will be updated in each Quarterly Report.

ACTIVE PROJECTS

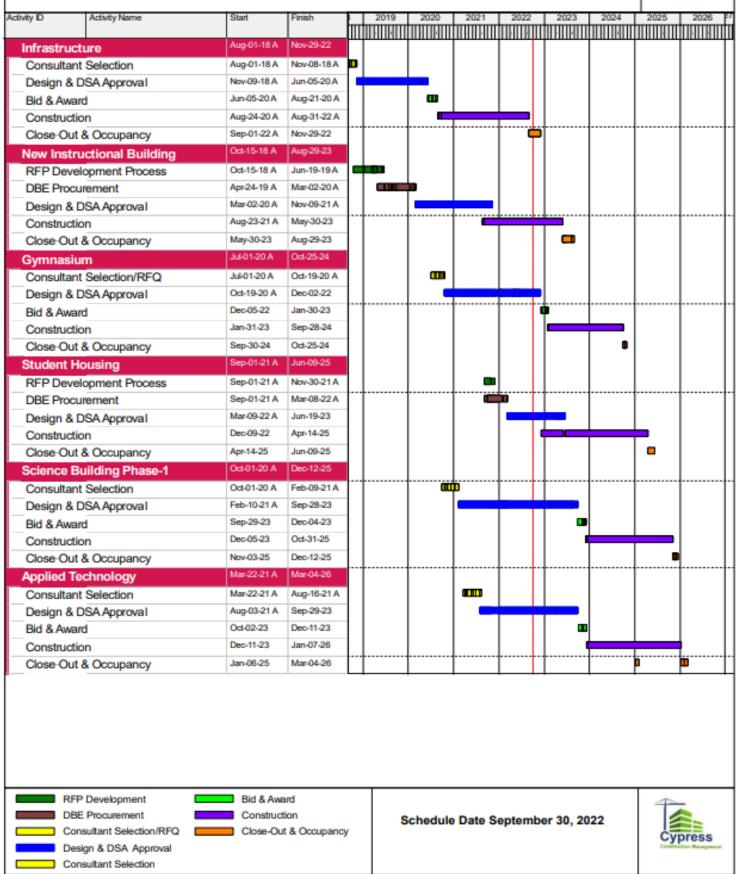

Active Project	Project Budget as of September 30, 2022	Expended as of September 30, 2022	Projected Final Cost	Construction Start *
Infrastructure	\$32.6M	\$23.4M	\$26.8M	August 2020
New Instructional Building	\$69.6M	\$35.3M	\$69.6M	August 2021

Campus Wide Improvements	\$5.5M	\$259.2K	TBD	TBD

^{*}Construction Start reflects Notice to Proceed (NTP) date.

FACILITIES MASTERPLAN IMPLEMENTATION 2022-2023 ACTIVE PROJECTS SCHEDULE

Infrastructure Project

Project Summary

Project Scope:

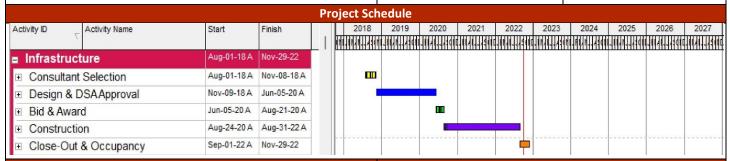

The project will be implemented in multiple phases to best support new construction and renovation projects while maintaining campus operations. This project will upsize and/or replace utility and technology services to all existing and new buildings. Services include electrical power and lighting distribution, low voltage communication, domestic water, fire protection, irrigation water services, natural gas, sanitary sewer, and storm water systems. Two new utility yards will be added to support new campus buildings. In May 2021, the scope was expanded to include the replacement of much of the original the domestic water service, and additional storm water management improvements.

Project Budget: \$32.6M
Funding: Measure E
Delivery Method: Design Bid Build

Project Phase: Completion/Close-out

Construction Start:August 2020Construction End:Fall 2022Design Engineer:LP Engineers

Contractor: Stronghold Engineering

Project Status

The project achieved Substantial Completion on August 31, 2022. The punchlist items are currently being completed, and the last set of Proposed Change Orders are being negotiated.

Next 90 Days

Project close-out will include the approval of the final set of Proposed Change Orders, the approval and filing of the Notice of Completion, the release of retention, and the DSA certification of the project.

New Instructional Building

Project Summary

Project Scope:

This new three-story classroom building will replace and consolidate campus square footage from numerous smaller inefficient buildings into one larger efficient building with modern and comfortable classroom and gathering places. The new building will be located directly north of Weaver Hall and west of the new parking garage on the northern edge of campus. It will provide approximately 75,000 GSF of classrooms, teaching laboratories, and office space.

Sub-project(s): Weaver Utility Yard

Project Status

Project is 55% complete. Exterior framing and sheathing is almost complete, building weatherproofing, metal siding installation, and window installation is continuing. Interior work is on-going including metal framing of walls, drywall/tape/texture, and the start of utility installations. Utility yard equipment installed.

Next 90 Days

Exterior work will be completed as needed to seal the building from the weather. Interior work will continue, and orders will be placed for long lead items such as classroom furniture and lab equipment.

Gymnasium Modernization

Project Summary

Project Scope:

This project will modernize and renovate the existing 60-year-old gym buildings, improving the safety, efficiency, and accessibility of the complex. The existing gym will be turned into new instructional space, and a new regulation-sized gym added to the east side of the complex. The new gym complex will allow for the consolidation of the PE classes currently taught in 5 portable buildings (all 5 portables will be demolished following the completion of the project). This project is funded by District and State resources. (No Measure E funds will be used for this project.) **Project Budget:** \$58.3M

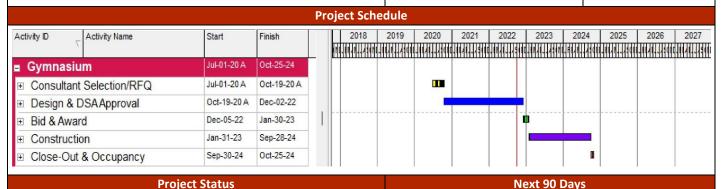

Funding: State and District

Delivery Method: Design Bid Build

Project Phase: Design Architect: Lionakis

Jan/Feb 2023 **Construction Start:**

Construction End: Winter 2025

Project Status

Awaiting Chancellor's Office/Department of Finance approval to start the formal bid process for construction. The construction of the swing space PE villages is continuing and on-track for year-end completion.

Once the PE villages are completed, the classroom, lab, and office furniture and equipment will be moved from the gym buildings into the village buildings over Winter Break and the villages will be ready for Spring semester occupancy.

Student Housing

Project Summary

Project Scope:

This new student housing project will add 354 beds to the current on-campus student housing and also establish a full-time student presence and sense of community at the core of campus. This project is funded by a state grant provided through the Senate Bill 169 Affordable Student Housing Program. Due to this state funding, the District will be able to charge affordable rents at roughly half the local market rate. (No Measure E funds will be used for this project.)

Project Budget: \$98.2M Funding: State & District

Delivery Method: Design-Build Project Phase: Design

Construction Start: December 2022
Construction End: Summer 2025

Project Status

As a result of the Schematic Design cost overrun, the design effort has been restarted using a lower cost 3-bedroom apartment concept (vs. the initial 2-bedroom apartment concept). The project has also been divided into increments for DSA submittal: Increment 1A, 1B (both site work packages), and Increment 2 (building package).

Next 90 Days

Increment 1A of the site work is scheduled to start before the end of the year and will include the demolition of I Building and the relocation of the K Building chiller out of the project footprint.

Student Housing Rendering & Location

Science Building Phase 1

Project Summary

Project Scope: This project will replace the existing Science Building, Sewell Hall, which was built in 1961. The new 54,553 GSF Science Building will contain a total of 38,001 assignable square feet comprised of 936 assignable square feet of lecture space, 27,696 assignable square feet of laboratory space, 3,352 assignable square feet of office space, 1,497 assignable square feet of library space and 4,520 square feet of instructional support space. In addition, the project will also remove several temporary buildings that have been added over time to help increase teaching laboratory space.

Project Budget: \$81.2M

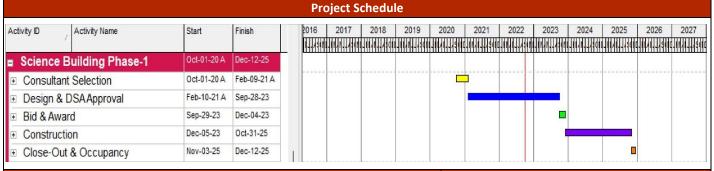

Funding: State and Measure E

Delivery Method: Design Bid Build

Project Phase: Design

Architect: LPA/Lake-Flato

Construction Start: Fall 2023 **Construction End:** Fall 2025

Project Status

The Preliminary Design Package was approved by the Public Works Board on September 9th, and the project design effort was re-started on September 12th. The design has been split into Site and Building packages with the current emphasis on completing the Site Work design for submittal to DSA in December, locking in the current building code for both the site and the building.

Next 90 Days

The Site Package will be submitted to DSA for review on December 12^{th.}

Applied Technology Center Modernization

Project Summary

Project Scope: This project will modernize buildings H and N on the Rocklin campus to better respond to the needs of local industry for Career Technical Education graduates. These two buildings were built in 1961 and 1966, and have a total of approximately 37,000 GSF, with a courtyard between them that will be incorporated into the new Applied Technology Center.

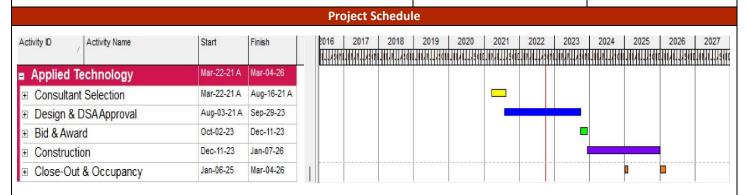

Project Budget: \$50M Funding: \$50M

Funding: State & Measure E
Delivery Method: Design-Bid-Build
Project Phase: Preliminary Design

Architect: Lionakis

Construction Start: September 2023

Construction End: September 2025

Project Status Next 90 Days

The Preliminary Design Package is in review by the Chancellor's Office and the Department of Finance. Swing space planning is in process, including a temporary welding village in G Lot and other temporary instructional spaces in E Building and in the N Building Maker Space.

Approval of the Preliminary Design Package is expected, which will immediately re-start the design in the Working Drawings phase.

Weaver Hall Modernization

Project Summary

Project Scope:

This project will modernize the two-story Weaver Hall, which was built in 1971 and has had no renovations since its construction. The modernized building will provide comfortable and technologically-current instructional spaces and be updated to current accessibility and building code requirements. Weaver Hall and the New Instructional Building will become the largest instructional space on campus, and will be the home of the Liberal Arts Division offices.

Project Budget: \$24.5M
Funding: Measure E
Delivery Method: Design Bid Build
Project Phase: Initial programming is

complete.

Construction Start: Fall/Winter 2025
Construction End: Fall/Winter 2027

Project Area: 32,641 GSF

Campus Wide Improvements

Project Summary

Project Scope: This project will address necessary campus improvements that do not directly relate to a specific project, such as landscaping between buildings, pedestrian and vehicle circulation, storm water management of the campus, etc. Large improvement efforts may be broken out into separate projects.

Project Area: Campus-wide.

Project Budget: \$5.5M
Funding: Measure E

Delivery Method: Specific to Type of Effort

Project Phase:TBDConstruction Start:TBDConstruction End:TBD

Project Status Next 90 Days

On-going review of project landscaping plans for compliance with the Landscape Master Plan.

Storm Water Retention Basin Examples

Completed Projects

A project is "Complete" when all the following conditions are met:

- Substantial Completion/Beneficial Occupancy has been achieved and acknowledged by District staff;
- All punch list items have been completed to the satisfaction of District staff; and
- The Notice of Completion is being prepared for Board of Trustees approval and filing with the Placer County Recorder's Office.

Parking Garage

Project Summary

Project Scope:

The parking garage is centrally located on the north end of the campus quad, defining the north edge of the developed campus between the New Instructional Building and the new tennis courts. Access is from Sierra College Boulevard. It has been designed to accommodate solar panels on the 5th level for a future sustainability project.

Sub-project(s): Greenhouse

Project Area: 486,700 GSF | 101,000 SF footprint

1,501 spaces | 5 levels

Project Budget: \$49.9M (final cost)

Funding: Measure E

Delivery Method:

Project Phase:

Complete

Construction Start: December 2019
Construction End: June 2021

Design-Build Contractor: McCarthy Builders &

Watry Design

Notice of Completion filed: July 2021

Student Union Modernization / Expansion Phase 1 Kitchen Renovation

Project Summary

Project Scope: The first phase of this two-phase project provided a much-needed update to the cafeteria kitchen and serving area. All kitchen plumbing and wiring were updated, air handling units were replaced to improve energy efficiency, and a generator was added to support refrigerators/freezers in case of loss of power. The second project phase will combine, renovate, and update the current cafeteria, dining room, bookstore, and student engagement centers into a student union that will be designed to support the Facilities Master Plan build-out goal of 22,500 students.

Project Budget: \$5M (final cost)
Funding: Measure E

Delivery Method: Design Bid Build

Project Phase: Complete

Construction Start: December 2019

Construction End: Feb 2021
Architect: Nacht & Lewis

Builder: SW Allen Construction

Notice of Completion filed: Feb 2021
