Financial Data as of December 31, 2022

Introduction

In the 2018 June primary election, voters in Placer, El Dorado, and Sacramento counties approved Measure E, the first bond approved for the Rocklin Campus since 1957. Measure E provides \$350 million in facilities bond funding and represents the majority of funding available to implement planned facilities improvements at Sierra College's Rocklin Campus. In addition, Sierra College will supplement Measure E bond funds with state facilities bond funding, proceeds from the development of properties owned by the college, and other funds from its annual operating budget. Taken together, approximately \$500 million will be invested over the next decade to support new construction and modernization of Rocklin Campus facilities. This construction program will create modern, comfortable, and inspiring classrooms, offices, and gathering places which will allow Sierra College to serve future generations of area residents. These projects will also address traffic and parking issues which impact the campus and surrounding areas. In the following pages, *The Rocklin Campus Facilities Master Plan Implementation Report: Fiscal Year 2022/2023 Second Quarter* provides an update on this historic construction program.

Active Projects

A project is "Active" when District staff are actively planning for the start of design or have started to expend funding on the project.

Active projects during the second quarter of FY 22/23 include:

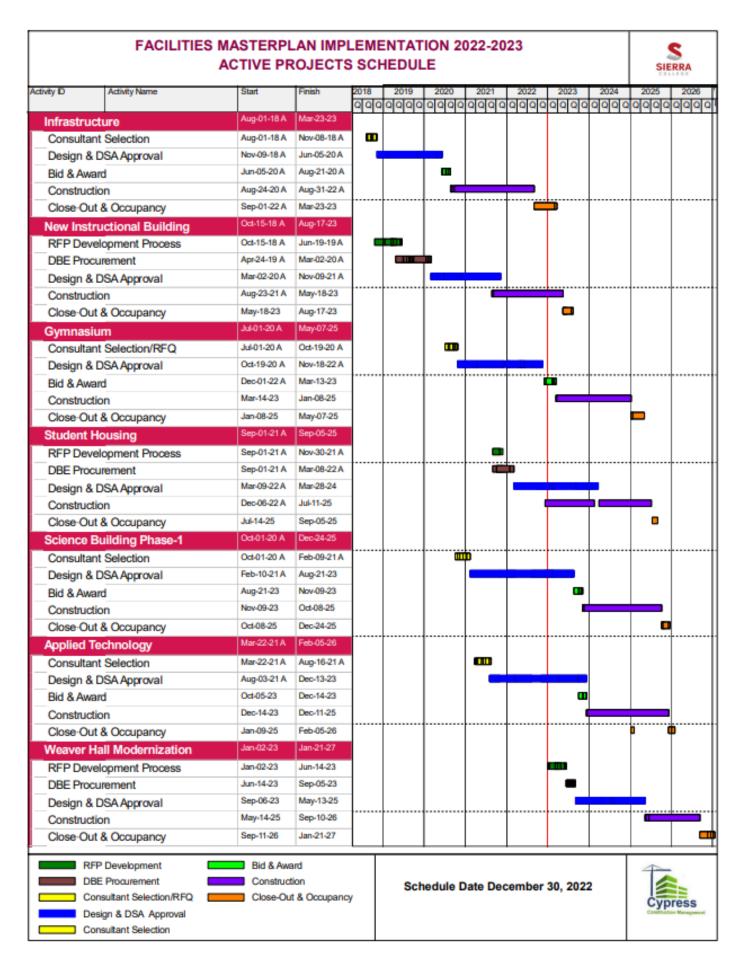

- Infrastructure
- New Instructional Building
- Gymnasium Modernization
- Student Housing
- Science Building Phase 1
- Applied Technology Center Modernization
- Weaver Hall Modernization
- Campus Wide Improvements

The following chart provides budget and schedule information for all active projects as of the date noted. Expenditures and projected final costs will be updated in each Quarterly Report as needed. Throughout the life of the Facilities Master Plan (FMP) Implementation program, regular adjustments to project budgets, scope, and scheduling are anticipated.

ACTIVE PROJECTS

Active Project	Project Budget as of December 31, 2022	Expended as of December 31, 2022	Projected Final Cost	Construction Start	Construction Completion
Infrastructure	\$32.6M	\$24.7M	\$26.8M	NTP August 2020	August 2022
New Instructional Building	\$69.6M	\$45.3M	\$69.6M	NTP August 2021	Planned for May 2023
Gymnasium Modernization	\$58.3M	\$5.7M	\$58.3M	Planned for March 2023	Planned for Spring 2025
Student Housing	\$98.2M	\$2.4M	\$98.2M	December 2022	Planned for Summer 2025
Science Building Phase 1	\$81.2M	\$3.3M	\$81.2M	Planned for Fall 2023	Planned for Fall 2025
Applied Technology Center Modernization	\$50.0M	\$1.8M	\$50.0M	Planned for Winter 2023	Planned for Winter 2025
Weaver Hall Modernization	\$24.5M	\$13.6K	\$24.5M	Planned for Spring 2025	Planned for Fall 2026
Campus Wide Improvements	\$5.5M	\$281.5K	TBD	TBD	TBD

NTP: Notice to Proceed

Infrastructure Project

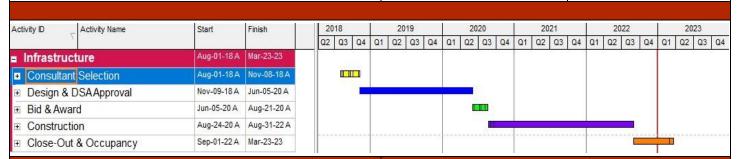

Project Scope:

The project will be implemented in multiple phases to best support new construction and renovation projects while maintaining campus operations. This project will upsize and/or replace utility and technology services to all existing and new buildings. Services include electrical power and lighting distribution, low voltage communication, domestic water, fire protection, irrigation water services, natural gas, sanitary sewer, and storm water systems. Two new utility yards will be added to support new campus buildings. In May 2021, the scope was expanded to include the replacement of much of the original the domestic water service, and additional storm water management improvements.

Project Budget: \$32.6M
Funding: Measure E
Delivery Method: Design Bid Build
Project Phase: Completion/Close-out

Construction Start: August 2020
Construction End: August 2022
Design Engineer: LP Engineers

Contractor: Stronghold Engineering

Project Status

Substantial Completion was achieved in August 2022, and by the end of December all punch list actions were completed and negotiations were also completed for the final set of change orders.

Next 90 Days

The final set of change orders will go to the Board for review and approval in February 2023, which will start the close-out process for the project.

New Instructional Building

Project Summary

Project Scope:

This new three-story classroom building will replace and consolidate campus square footage from numerous smaller inefficient buildings into one larger efficient building with modern and comfortable classroom and gathering places. The new building will be located directly north of Weaver Hall and west of the new parking garage on the northern edge of campus. It will provide approximately 75,000 GSF of classrooms, teaching laboratories, and office space.

Sub-project(s): Weaver Utility Yard

Project Status

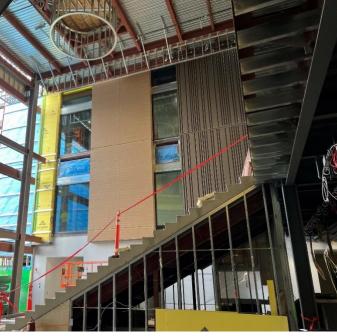

Project is 70% complete. Waterproofing the building and completing the siding and window installations is the focus for the building exterior; interior wall finishes, painting, and utility installations are 45% complete. Flooring and ceiling installations have started. Site flatwork and bioretention pond installations are continuing, weather permitting. The initial furniture order for classrooms and offices has been done.

Next 90 Days

Completion of siding and window installations; art yard slab poured; interior work continuing. The balance of the building furniture will be ordered.

Gymnasium Modernization

Project Summary

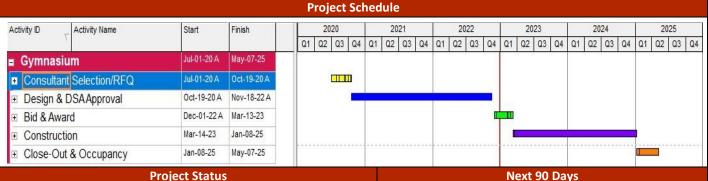

Project Scope:

This project will modernize and renovate the existing 60-year-old gym buildings, improving the safety, efficiency, and accessibility of the complex. The existing gym will be turned into new instructional space, and a new regulation-sized gym added to the east side of the complex. The new gym complex will allow for the consolidation of the PE classes currently taught in 5 portable buildings (all 5 portables will be demolished following the completion of the project). This project is funded by District and State resources. (No Measure E funds will be used for this project.) **Project Budget:** \$58.3M

Funding: State and District **Delivery Method:** Design Bid Build

Project Phase: Design Architect: Lionakis **Construction Start:** March 2023

Construction End: Spring 2025

Project Status

Approval to start the construction bid process was received on November 18, 2022, and the bid package was released on December 1, 2022 to the 4 pregualified contractors. Bids are due on January 24, 2023. Concurrently, the 3 swing space villages are complete except for the restroom/shower/laundry trailer units which should arrive in January 2023.

Bid opening is scheduled for January 24, 2023, with the contract for the responsive low bidder submitted for Board approval on February 14, 2023 contingent upon State approval.

Student Housing

Project Summary

Project Scope:

This new student housing project will add 358 beds to the current on-campus student housing and also establish a full-time student presence and sense of community at the core of campus. This project is funded by a state grant provided through the Senate Bill 169 Affordable Student Housing Program. Due to this state funding, the District will be able to charge affordable rents at roughly half the local market rate. (No Measure E funds will be used for this project.)

Project Budget: \$98.2M

Funding: State & District

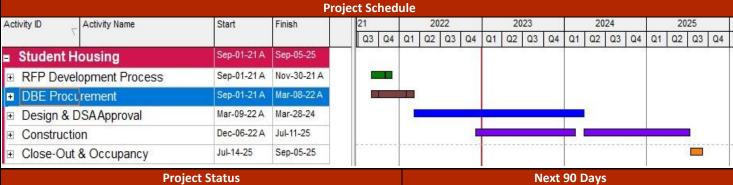

Delivery Method: Design-Build

Project Phase: Design **Construction Start:**

Construction End:

December 2022 Summer 2025

Project Area: 124,000 GSF

Project Status

The project has completed preparations for the initial site work phase and is waiting for the DSA permit to demolish I Building, which is in the footprint of the new student residence. The design of the building is in the design development phase, with design completion/DSA submittal planned for summer 2023.

Increment 1a site work completed.

Student Housing Rendering & Location

Science Building Phase 1

Project Summary

Project Scope: This project will replace the existing Science Building, Sewell Hall, which was built in 1961. The new 54,553 GSF Science Building will contain a total of 38,001 assignable square feet comprised of 936 assignable square feet of lecture space, 27,696 assignable square feet of laboratory space, 3,352 assignable square feet of office space, 1,497 assignable square feet of library space and 4,520 square feet of instructional support space. In addition, the project will also remove several temporary buildings that have been added over time to help increase teaching laboratory space.

Project Budget: \$81.2M

Funding: State and Measure E

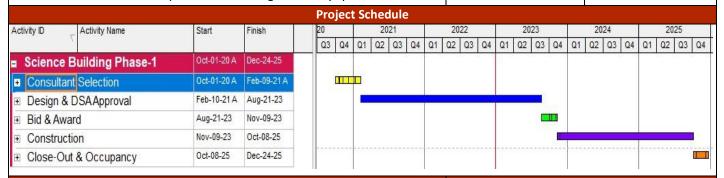

Delivery Method: Design Bid Build

Project Phase: Design

Architect: LPA/Lake-Flato

Fall 2023 **Construction Start:**

Fall 2025 **Construction End:**

Project Rendering

Project Status

The science project site package was submitted to DSA in December, which locked in the building code for the project. The building design is near the end of the design development phase, and will be going through a final District review in February 2023 followed by DSA submittal at the end of February.

Next 90 Days

Expect site package comments from DSA; plan to submit building package to DSA for review on February 27, 2023.

Applied Technology Center Modernization

Project Summary

Project Scope: This project will modernize buildings H and N on the Rocklin campus to better respond to the needs of local industry for Career Technical Education graduates. These two buildings were built in 1961 and 1966, and have a total of approximately 37,000 GSF, with a courtyard between them that will be incorporated into the new Applied Technology Center.

Project Budget: \$50M Funding: \$tate

Funding: State & Measure E

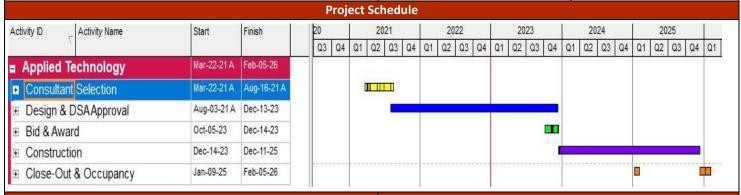

Delivery Method: Design-Bid-Build

Project Phase: Preliminary Design

Architect: Lionakis

Construction Start: Winter 2023

Construction End: Winter 2025

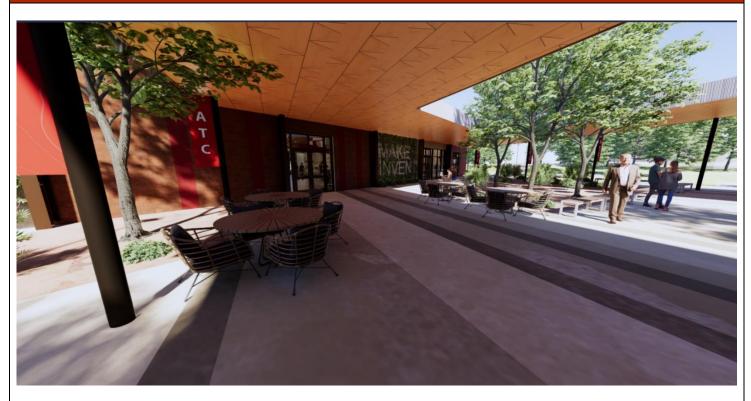

Project Status

The Working Drawings phase for the project continues while planning for the multiple swing space locations moves into implementation planning for each space. The current plan is to move the instruction programs into swing spaces for the Spring 2024 semester.

Next 90 Days

Completion of the project swing space plans and schedule; and completion of the project phasing plan.

Weaver Hall Modernization

Project Summary

Project Scope:

This project will modernize the two-story Weaver Hall, which was built in 1971 and has had no renovations since its construction. The modernized building will provide comfortable and technologically-current instructional spaces and be updated to current accessibility and building code requirements. Weaver Hall and the New Instructional Building will become the largest instructional space on campus, and will be the home of the Liberal Arts Division offices.

Project Budget: \$24.5M
Funding: Measure E
Delivery Method: Design Bid Build
Project Phase: Initial programming is

complete.

Construction Start: Spring 2025

Construction End: Fall 2026

Project Area: 32,641 GSF

Campus Wide Improvements

Project Summary

Project Scope: This project will address necessary campus improvements that do not directly relate to a specific project, such as landscaping between buildings, pedestrian and vehicle circulation, storm water management of the campus, etc. Large improvement efforts may be broken out into separate projects.

Project Area: Campus-wide.

Project Budget: \$5.5M
Funding: Measure E

Delivery Method: Specific to Type of Effort

Project Phase:TBDConstruction Start:TBDConstruction End:TBD

Project Status Next 90 Days

King Engineering is supporting the design of the 3 bioretention basins for the new science building site.

King Engineering will update the stormwater master plan to reflect actual sizes of buildings with completed designs to determine remaining stormwater management needs for the campus.

Storm Water Retention Basin Examples

Project Financial Report – Campus Wide Improvements As of December 31, 2022

Completed Projects

A project is "Complete" when all the following conditions are met:

- Substantial Completion/Beneficial Occupancy has been achieved and acknowledged by District staff;
- All punch list items have been completed to the satisfaction of District staff; and
- The Notice of Completion is being prepared for Board of Trustees approval and filing with the Placer County Recorder's Office.

Project	Budget	Final Cost	Completed
Parking Garage	\$52.3M	\$49.9M	Notice of Completion filed
			July 2021

Parking Garage

Project Summary

Project Scope:

The parking garage is centrally located on the north end of the campus quad, defining the north edge of the developed campus between the New Instructional Building and the new tennis courts. Access is from Sierra College Boulevard. It has been designed to accommodate solar panels on the 5th level for a future sustainability project.

Sub-project(s): Greenhouse

Project Area: 486,700 GSF | 101,000 SF footprint

1,501 spaces | 5 levels

Project Budget: \$49.9M (final cost)

Funding: Measure E

Delivery Method:Design BuildProject Phase:Complete

Construction Start: December 2019
Construction End: June 2021

Design-Build Contractor: McCarthy Builders &

Watry Design

Notice of Completion filed: July 2021

Project Financial Report – Parking Garage As of December 31, 2022

Student Union Modernization / Expansion Phase 1 Kitchen Renovation

Project Summary

Project Scope: The first phase of this two-phase project provided a much-needed update to the cafeteria kitchen and serving area. All kitchen plumbing and wiring were updated, air handling units were replaced to improve energy efficiency, and a generator was added to support refrigerators/freezers in case of loss of power. The second project phase will combine, renovate, and update the current cafeteria, dining room, bookstore, and student engagement centers into a student union that will be designed to support the Facilities Master Plan build-out goal of 22,500 students.

Project Budget: \$5M (final cost)
Funding: Measure E

Delivery Method:
Project Phase:
Design Bid Build
Complete

Construction Start: December 2019
Construction End: Feb 2021

Architect: Feb 2021

Nacht & Lewis

Builder: SW Allen Construction

Notice of Completion filed: Feb 2021
