Students with disabilities shall be reasonably accommodated pursuant to federal and state requirements in all applicable programs in the District.

Student Accessibilities Services (SAS - formerly known as Disabled Students Programs and Services) shall be the primary provider for academic adjustments, auxiliary aids, services, or instruction that facilitate equal educational opportunities for disabled students who can profit from instruction as required by federal and state laws.

SAS services shall be available to students with verified disabilities. The services to be provided include, but are not limited to, reasonable accommodations, academic adjustment, technology accessibility, accessible facilities, equipment, instructional programs, rehabilitation counseling and academic counseling.

No students with disabilities are required to participate in SAS.

The District shall respond in a timely manner to accommodation requests involving academic adjustments. The Superintendent/President shall establish a procedure to implement this policy which, at a minimum, provides for an individualized review of each such request, and permits interim decisions on such requests pending final resolution by the appropriate administrator or designee.

The Superintendent/President shall assure that SAS conforms to all requirements established by the relevant laws and regulations.

See Administrative Procedure 5140.
